REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 13th April 1883.

READ—

Letter No. 794 of the 23rd December 1882, from the Superintendent, Mysore Revenue Survey, regarding the measurement of certain coffee lands in Panduvalli of the late Lakvalli Taluk.

No. 237-8—17, DATED 13TH APRIL 1883.

ORDER THEREON.—The Dewan concurs in the view of the Survey Superintendent, that as the pattadar has a real right in the estate, his occupancy cannot be subdivided without his express wish. It will, of course, be impossible for Government to subdivide and separately measure and define the shikmi holdings on every occasion of transfer and subdivision among coparceners and shareholders.

2. But if a pattadar should prefer to have the entire extent of land in his holding subdivided into separate numbers in accordance with the boundaries of portions of the holding in the possession of his sub-tenants, such division must be effected. The pattadar would still be regarded as the occupant of all numbers thus separately surveyed and will be liable to pay the Government revenue due upon them. Such an arrangement will meet the difficulty reported to exist in the special case of the pattadars of the Jagar valley who have parted with all real control over the land retaining only a right to receive a permanent but nominal rent in kind.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 8th May 1883.

READ—

Letter No. 642 of the 29th March 1883 from the Deputy Commissioner of the Tumkúr District reporting upon the petition of Subbamma, widow of the Hakdar Shanbhog of Bommenahalli and 4 other villages of the late Búdihal Taluk, complaining of the appointment of a stranger to the shanbhogship.

No. 659-67—11, DATED 8TH MAY 1883.

ORDER THEREON.—The rule prohibiting the recognition of widows' claims to succeed to the Shanbhog office of their deceased husbands has not been generally enforced, and in more than one case the claims of widows in the absence of nearer heirs have been admitted and they have been allowed to appoint their Gumastas for the discharge of the Shanbhog duties: instances are not wanting in which Gumastas appointed by Government have been directed to find maintenance for the widows, and considering the hereditary nature of the office the Dewan is unwilling to reject the claims of the widows altogether.

2. In the particular instance now before him, the Dewan observes that the present Shanbhog is an entire stranger to the family and has been in office from 1881 and it will not be a hardship if he is called upon either to find a proper maintenance for the widow or give up office altogether in which case the widow may be called upon to appoint a competent Gumasta.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioner, Tumkúr District, with Proceedings.
The Deputy Commissioners of other Districts for information.
The Sub-Division Officers for information.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 26th May 1883.

No. 919-22—67, DATED 26TH MAY 1883.

ORDER.—Pending the introduction of the scheme for the development of Local Self-Government, which is now under the consideration of His Highness the Maharaja's Government, it is resolved to relieve the Municipality of the Bangalore Town of the cost of the Town Police Force. The constitution of the Municipal Board has to be improved, so as to increase its responsibility and its real use ulness. This has to be effected by means of a new law and will therefore occupy some time.

2. In the meantime orders have to be passed upon the budget for the current year, and advantage may be taken of this opportunity to relieve the Municipality of the cost of the Town Police over which the Board can exercise no control whatever, and to transfer to the management and control of the Board suitable items of expenditure which are at present met from Provincial revenues. The Government are of opinion that the administration of local medical and other charities and of local educational institutions teaching up to a certain standard may properly be handed over to the Board, as the local experience and interest which it must be able to bring to bear upon their management, must be of great benefit to the institutions concerned.

3. The present cost on account of the Town Police amounts to Rs. 26,578 per annum. In order to meet this cost, the Board now receives the revenues from mohatarfa taxes and liquor licenses. While therefore the Board will continue to have these sources of income which are in every way fit to be administered by local bodies, it will cease to bear the cost of the Police, but instead thereof, will take over the following items of expenditure :—

	Annual Cost. Rs.	
I. Medical charity.—		
1. Town Civil Dispensary	3,639	
2. The Maternity .. .	1,488	
		5,127
II. Other local charities.—		
1. Orphanages	1,000	
2. Government Chattram ..	764	
3. Langarkhana	1,800	
		3,564
III. Educational Grants-in-aid.		9,120
	Total Rs.	17,811

4. The items of expenditure thus transferred to the Board are less than the cost of the Police by Rs. 8,767 ; and items of receipts nearly equal of this amount may therefore be taken away from it. It is accordingly directed that the following cash contributions from Provincial revenues shall cease: namely—

Rs. 3,500 from the D. P. W. on account of the maintenance of suburban roads within Municipal limits ; and—

Rs. 5,000 from Land Revenue on account of cultivated lands within the same limits.

These are sources of income which the Board cannot administer and are therefore properly taken away from it.

5. Hereafter when the constitution of the Board is improved and when it has acquired some experience in the management of Institutions such as those now made over to it, other items of Provincial income and expenditure can be transferred to its administration.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 26th May 1883.

6. For the purpose of control over the Medical and Educational Institutions which the Board will hereafter maintain or to which it will contribute grants-in-aid, the services of the specially trained officers at the disposal of the Government will be made available to the Board, which, while it shall have sole and unfettered charge of the Institutions now made over to its management, will be bound to maintain them at the standard of efficiency prescribed by Government, with the aid and advice of the Government Officers already referred to.

7. It is proposed to abolish the Primary and Middle-School classes of the Central College. It is impossible that such classes can receive the requisite amount of attention from the Head of an Institution which teaches up to the highest collegiate standard. The want therefore of a school under efficient management and giving instruction up to the Middle-School standard, appears to be much felt in the Town. Already such a school has been opened in the Town by private enterprise, and the managers of this school have applied for a grant-in-aid from Government, and are understood to be willing to place the school under the management of the Board. The Board may therefore not only give a grant-in-aid of Rs. 100 per mensem to this school but also take it under its own management as a "Municipal School" and accommodate it in the premises now occupied by the Municipal Office which may for this purpose be removed to the District Office buildings. If the managers of this school are not agreeable to this arrangement, it is desirable that a separate Municipal school should be established as soon as possible in the manner above indicated. Such a school must, to a very great extent, be self-supporting, and it should for the present confine itself to teaching up to the Middle-School standard.

8. A sum of Rs. 12,415, being kandayam of lands within Municipal limits for the years 1876—77 up to 1882—83, must, in accordance with the understanding on which this item of revenue was transferred to the Board, be set apart as a reserve fund for charitable purposes.

9. The attention of the Municipal President will be drawn to the fact that the present No. 1 Division is too large for efficient management. A part of it and the portions recently transferred from the Civil and Military Station may therefore be formed into a new Division to be called the sixth, and Mr. Sidney Smith, Advocate, and Mr. I. J. Bhabha, Vice Principal of the Central College, appointed Commissioners of this Division. Upon receipt of the Board's views upon these proposals, the necessary orders will at once be passed.

Secretary.

7. Rama Rao ..	Revenue Head Record-keeper, District Office.	52	35	33
8. Krishnasami Mudali ..	District Treasury Accountant ...	51	25	24
9. Apparao Mudali ...	Sheristadar, Gubbi Taluk ...	44	50	24
10. Sinappa ..	Revenue Gumasta, Gubbi Taluk ...	53	15	29
11. Chandraiya ...	Shroff, District Treasury ...	23	20	1¼

2. The proposals made by the Deputy Commissioner for filling up the vacancies caused by the retirement of these officials are approved. It is noted that they make provision for the undermentioned supernumerary officials as shown below :—

Name.	Last appointment.	How provided for.
1. Govindasami Naidu ...	Police Head Munshi, Chitaldroog District, on Rs. 40.	Appointed Revenue Head Record-keeper in the District Office, on Rs. 35.
2. Tiruvengadam Pille ...	Treasury Accountant, Chitaldroog, on Rs. 30.	Appointed District Treasury Accountant, on Rs. 25.
3. Nana Rao ...	Sheristadar, Chitaldroog Taluk, on Rs. 50.	Appointed Sheristadar of Gubbi Taluk, on Rs. 50.
4. Basappa Nayik ...	Shekdar, Challakere Taluk, on Rs. 15.	Appointed Shekdar, on Rs. 15.
5. Shamaiengar ...	Revenue Gumasta, Koratagere Taluk, on Rs. 15.	Appointed Revenue Gumasta of Maddagiri Taluk, on Rs. 15.
6. Cheluvaiya ...	Judicial Gumasta do on Rs. 15.	Appointed Revenue Gumasta of Gubbi, on Rs. 15.
7. Seshagiri Rao ...	Munshi, Budihal Taluk, on Rs. 20.	Appointed Head Gumasta of Sira, on Rs. 20.
8. Varadachari ...	Record-keeper, Budihal Taluk, on Rs. 15.	Appointed Record keeper of Pavagada, on Rs. 15.
9. Gunde Rao ...	Revenue Gumasta, do on Rs. 15.	Appointed Revenue Gumasta of Pavagada on Rs. 15.
10. Govinda Rao ...	Judicial Gumasta, do on Rs. 15.	Appointed Shekdar of Kora Hobli, on Rs. 15.
11. Ahobalaiya ...	Shroff, Koratagere Taluk, on Rs. 15.	Appointed Shroff of Tumkúr Taluk, on Rs. 15.

3. Subbanna, Sheristadar of the late Koratagere Taluk, may be appointed Police Head Munshi of the Tumkúr District, Krishna Rao being confirmed as Judicial Head Munshi. Subbanna does not know English, and therefore the Deputy Commissioner may, as proposed by him, send him out as Taluk Sheristadar and get either Srinivasa iengar or some other Taluk Sheristadar as Police Head Munshi. Pending such an arrangement, Govindasami Naidu may, for the present, be made to take charge of the duties of Police Head Munshi, Subbanna being placed in charge of the Revenue Re

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 28th May 1883.

4. In para 8 of letter No. 40, the Deputy Commissioner refers to para 4 of the Dewan's Proceedings No. 7329—165, dated 5th March last, and reports that Shama Rao and Puttannaiya have been discharged. There apparently was no need for any such step, for it is not shown what has become of the 2nd Gumasta's place in the Koratagere Deputy Amildar's Office to which Shama Rao had been nominated, nor has the Judicial Gumasta's place in the Maddagiri Taluk, to which Puttannaiya had been nominated, had to be given to one of the supernumerary officials. Moreover, there appears to be a vacancy of Rs. 15 caused by the death of a Shekdar in the Maddagiri Taluk; and there are at least two Shekdars, Ramaswami and Garudachari, in the Sira Taluk who may be made to retire at once with benefit to the public service. Under such circumstances, it was not necessary to discharge any of the officials referred to in para 4 of the Proceedings of the 5th March last, and the Deputy Commissioner is therefore requested to re-employ immediately such of them as have been discharged. The fact that the reduction of Hoblis is under contemplation is not sufficient reason for maintaining vacancies and throwing out men already in employ.

5. Ramachandra Rao, Sheristadar, and Krishnappa, Nagadi Gumasta, of the late Budihal Taluk, though entitled to half pension by length of service, appear to be young and capable of further service. The Deputy Commissioner will be able to provide for Krishnappa by appointing him to one of the vacancies indicated in the last paragraph. He is therefore requested to arrange immediately for his appointment either as a Shekdar or Gumasta, as also to give Shekdar's appointments to Narasanna, Shekdar, Holalkere Taluk, and to Subba Rao, Shroff of the late Budihal Taluk. An early report should be submitted showing the arrangements made to carry out these orders.

Ramachandra Rao will, for the present, be retained as a supernumerary, doing work in the District Treasury. The Deputy Commissioner must provide for him within six months from this date.

6. The other supernumeraries of the late Chitaldroog District whose names are noted in the margin will be provided for either in the Bangalore, Kolar or Mysore District where it is understood some vacancies exist. It is therefore not necessary to discharge either Guru Rao or T. A. Rama Iyer on the score of short service.

	Pay.
1. Ramaswamaiengar, Deputy Munshi, Assistant Commissioner's Office, Chitaldroog District.	35.
2. Kasturi Rangachar, Revenue Head Record-keeper, Chitaldroog District.	35.
3. H. Rama Rao, Revenue Deputy Accountant, Chitaldroog District.	40.

7. The Sub-Division Officer at Chitaldroog should report the circumstances under which he appointed his own brother to a vacancy in the Pavagada Taluk.

R. VIJAYINDRA RAO,
Secretary.

PART I.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 26th June 1883.

READ—

Kadur District Deputy Commissioner's letter No. 138 of 5th June 1883, regarding the disposal of coffee lands resigned by former occupants and applied for by darkhastdars.

READ also—

Dewan's Proceedings No. 3662—98, dated 2nd August 1881.

No. 1216-19—72, DATED 15TH JUNE 1883.

ORDER THEREON.—As the lands have been surveyed and possess the Survey guarantee, the usual course should be to sell the lands applied for by public auction to the highest bidder.

2. The assessment on such lands should be regulated under Rule 5 of the Coffee Land Rules, if, as provided in Rule 6, the lands are *totally out of cultivation.*

3. All provisions made under Rule 7 at the time of settlement as to the temporary levy of a reduced assessment, though intended only for the benefit of the persons at that time holding the lands, may be extended to the purchasers of resigned lands, but not so as to postpone the dates on which, as originally fixed, the full assessment was to become leviable.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioner, Kadur District.
The Sub-Division Officer, Hassan.
The Deputy Commissioner, Shimoga District.
The Superintendent, Revenue Survey, for information.

READ—

Letters No. 831 and 154 of the 1st February and 14th March 1883 from the Deputy Commissioner of Bangalore District.
Letter No. 106, dated 9th May 1883, from the Deputy Commissioner of Tumkúr District.

No. 1497-9—119, DATED 26TH JUNE 1883.

ORDER THEREON.—The work of fixing and awarding compensation to the owners whose lands have been taken up for the Tumkúr Railway may be in charge of the Amildars to whose Taluks the lands belong, subject of course to the control of the Deputy Commissioners of Bangalore and Tumkúr.

2. The amount of compensation should be fixed with reference to the nature of the soil, the average selling price as may be ascertained from the Registration Department and the annual yield from the land which a careful enquiry on the spot will enable the officers to find out.

3. The Deputy Commissioners will send an individual statement of the cases showing the extent of land taken from each ryot, the proportionate assessment on such extent, the rate of compensation fixed and the amount proposed to be paid, explaining in the report the principle on which the rate may be fixed.

4. The payment of compensation will be made on the sanction of this Office.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioners of the Bangalore and Tumkúr Districts.
Copy to the Consulting Engineer for information.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 27th June 1883.

READ—

Letter No. A of the 22nd May 1883 from the Assistant Commissioner in charge of the Hassan Sub-Division.

CAMP No. 25, DATED 27TH JUNE 1883.

ORDER THEREON.—The Sub-Division Officer at Hassan brings again to notice the very disorganized state of the revenue administration of the Hassan Taluk. The village accounts do not seem to have been regularly written up, and ryots' receipt books have not been distributed, and it is reported that in almost every case the revenue demand against an individual is not ascertainable without casting up his accounts from the year 1875—76.

2. The Officers who conducted the jamabandi of this Taluk in previous years could not, the Dewan regrets to find, have done their duty, for it is evident that they failed to organize and promptly to carry out measures for the due preparation of all prescribed villagevar annual accounts, and for the distribution of ryots' receipt books.

3. The disorganized condition of the Taluk reflects serious discredit upon the Amildar Khader Ali. He is perhaps not responsible for the origin of the confusion which now exists, but it is quite clear that during the several years he has been in charge of this Taluk, he failed to effect any improvement. It is true that he has had to work with an unsatisfactory establishment, and that the Taluk Sheristadar Krishnappa has shown himself to be unfit to be entrusted with responsible work and to be otherwise unreliable. He has been transferred from that Taluk and he should be directed to report himself forthwith to the Deputy Commissioner of the Bangalore District, for employment as the Sheristadar at Closepet or elsewhere in that District. Amildar Khader Ali should be warned that his retention in the public service will depend upon the good work that he can show within the next six months in getting all revenue accounts duly and carefully prepared and in working up the large arrears of business he has allowed to accumulate in all matters connected with the Taluk administration. It is probable that he may not be able to devote his personal attention to the business connected with the entire Taluk, and therefore, upon the urgent recommendation of the Sub-Division Officer, the Dewan is pleased to sanction, as a temporary measure, until the close of the official year, the establishment of a Deputy Amildar's Office in the Hassan Taluk. Krishna Rao, Sheristadar of the Sub-Division Office, is accordingly appointed 1st Grade Deputy Amildar and 3rd Class Magistrate, and the Sub-Division Officer will select competent officials for the Deputy Amildar's Office according to the scale marginally noted. It is hoped that Mr. Ananda Rao will not, for the present, require a Sheristadar for his Office, and therefore the creation of the Deputy Amildar's Office will only involve an additional cost of Rs. 65 per mensem.

4. The Sub-Division Officer will report at once what Hoblis may conveniently form the charge of the Deputy Amildar and where his Office may be located, and in anticipation of sanction, he may at once depute Krishna Rao for duty in such parts of the Taluk as may require immediate attention.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 21st June 1883.

READ the following letters from the Military Secretary:—

No. 795—295, dated 16th October 1882.
No. 1063—159, dated 22nd December 1882.
No. 43—5, dated 11th April 1883.

No. 1350-1—12, DATED 21ST JUNE 1883.

ORDER THEREON.—In the letters above read, the Military Secretary brings to notice the unsatisfactory state of the 3rd Battalion of the Barr in which the officers and men receive less pay than those in the other two Battalions, and submits proposals for placing all Battalions of Barr on a footing of equality as regards pay. His Highness the Maharaja is pleased to accord sanction to the pay of the several ranks in the Barr Force being fixed as shown in the accompanying statement. The present monthly cost of the Barr Force is Rs. 16,986—8—0, and the sanction now accorded increases it to Rs. 17,044—8—0, involving an additional annual expenditure of Rs. 696.

2. In order to prevent the necessity of transferring officers and men from the 3rd Battalion to the others so as to place all Battalions on the same footing at once, the Military Secretary asks for sanction for an extra cost of Rs. 441 per mensem, to be gradually absorbed as vacancies occur in the 1st and 2nd Battalions. The Government are of opinion that it is not necessary to incur this additional expenditure, and that it would be sufficient if gradually, as vacancies occur or as transfers are found expedient, the three Battalions are brought to the sanctioned scale as regards number in each rank.

3. It will be seen that the Commandant, Risaldar, Subedar, Havaldar-Major, Armourer, Smith and Carpenter in the 3rd Battalion can all be given at once the increased sanctioned pay.

Secretary.

PRESENT.

President.—Major E. P. Maltby.

Members.—Messrs. R. P. Campbell, G. G. Brown, J. A. Gow, E. Hewetson, Standish Lee, E. Pereira, V. Sadasiva Mudaliar, N. Narayan Chetti and Abdul Kuddus.

Captain Kensington's letter to the President prohibiting the repair of the breach to the Water-Supply Channel at the back of the Stables of the Maharaja's Palace was laid before the Board, also a plan of the ground showing the breach, &c.

The President read a Minute he had prepared on the subject which was filed with the Proceedings.

Mr. Brown remarked that the ryots of the Pettah had addressed a petition to the Maharaja representing that, owing to the feeder of the Sampangi Tank having been cut off and diverted to the Water-Works Reservoir at Bedarhalli, the tank in question had run dry for the past three or four years and the crops suffered in consequence.

The President said that in the worst of seasons the Sampangi Tank had always contained water up to 1880, but since then the bed had been quite dry notwithstanding heavy rains. This year, only the lower of the three Miller's Reservoirs (into which the contents of the others had been drained) contained much water and even that limited supply was going down. The Alsúr Tank was never at so low a level as it was at the present time, and all this alarming scarcity of water was due to the natural sources of supply to the Station having been diverted towards the Water Works.

Mr. Brown remarked that he understood that the supplies in question had been cut off to feed the Water Works, the Mysore Government undertaking in return to supply the Station from those works when they were completed

The President replied that such an undertaking had undoubtedly been made when the country was under British rule, but he believed that the Mysore Government were now of opinion that they were not bound to supply the Station with water. The Mysore Government had cut off absolutely the only supplies of water the Station possessed. It might rain for weeks and the tanks in the Station would be as empty as ever. All the wells were either dry or nearly so.

The large well opposite the Market, from which great number of people in the vicinity got their drinking supply, now held so little water that he had to place a guard over it at night to keep people away and give it a chance.

Mr. Campbell heartily endorsed the President's remarks and urged that immediate and rigorous measures should be taken by the Board to have the natural and legitimate sources of water supply to the Station restored forthwith.

The President remarked that the channel in dispute had supplied the Reservoirs in the Station for many years, but now the drinking supply on which some twenty or thirty thousand souls depended had been diverted. There were means, as he had pointed out, by which the Palace grounds need not be damaged and yet by which the water source could be restored to the Station.

Mr. Lee fully agreed with the President, and read a Minute he had drawn up which was filed. Mr. Lee urged that the Board should ask for no favors but simply insist upon a restoration of their legitimate rights.

Mr. Campbell agreed with Mr. Lee and said that the Board should insist upon the Mysore Government accepting either of the two alternatives put forward by the President in his Memorandum.

Mr. Hewetson observed that he had spoken to Captain Kensington personally on the subject, and that officer had maintained that the Station Municipality had no right to the channel through the Maharaja's grounds, and that the Mysore Government would not give it upon any account. Mr. Hewetson had however gone fully into the matter, and was convinced that the Municipality had a positive right to demand that the source of water supply enjoyed by the Station for years past should be restored to it.

Mr. Lee said that the privilege belonged to the Municipality, and if the Palace authorities wanted to divert the channel, they should have asked permission from the Board to do so.

Mr. Pereira wanted to know whether the channel in question was not a natural feeder instead of an artificial one. The fact that it was a *natural* water course would greatly increase the claim the Municipality had over it.

The President said that the channel was an artificial one having been constructed many years ago.

Resolution.—Proposed by Mr. Standish Lee, seconded by Mr. R. P. Campbell and carried unanimously—

That this Meeting approves of the action of the President in ordering the repair of the old drain or water course at the back of the Maharaja's Palace (at point **f** on the plan) and with all due respect for the Government of Mysore the Board begs to assert the authority of the Municipal Commission and its officers to exercise all the rights and powers vested in them by the Municipal Act, and in particular by Regulations 163, 164 and 194 in reference to works of water supply, &c., whether within or without the limits of the Civil and Military Station.

Mr. Lee then suggested that the Board should demand that the channel in dispute be restored and the breach repaired.

The President said that the Board while asserting their rights and guarding the interests of the population did not want to cause any damage to the Maharaja's property and that the channel could be restored without interfering with the Palace grounds.

Mr. Campbell recommended that the President's Memo which put the case clearly and succinctly and provided two reasonable and feasible alternatives should be acted upon. The Board should at the same time be firm and resolved not to concede their rights.

Mr. Brown approved of Mr. Campbell's suggestion. The Board could maintain their rights as they should do, and yet not cause any annoyance to the Maharaja or the Mysore Government.

Resolution.—Proposed by Mr. R. P. Campbell, seconded by Mr. G. G. Brown and carried unanimously :—That as the President's Memorandum shows that the Miller's Tanks have always been fed from this channel to the Sampangi Tank, that the Resident in Mysore be addressed with a view to the immediate restoration of this channel to its old state, *viz.*, that the breaches at points **d** and **c** on the plan be filled in and that the channel be re-excavated at point **c** and that a bridge be built under the Railway (at point **b**), for the water to pass by to point **a** from thence to be diverted to the Miller's Tanks Nos 1, 2 and 3. The Board wishes to point out that they have no desire to damage the Palace grounds and that the Commissioners will waive their

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General,)—dated 6th June 1883.

claim to take their supply at point **f** on the plan, on the understanding that the point of delivery is transferred to point **a**, by which arrangement the Palace grounds will not be interfered with.

Mr. Campbell said that the action of the Mysore Government in this matter was very ill-judged and ungracious. They had no right to cause the breach in the bund of the channel in question without first addressing the Municipality on the subject. It was simply setting the Municipality at defiance, and ignoring the rights and privileges of the Board; he was of opinion that a resolution should be adopted by the Board protesting against the action of the Mysore Government and after some further discussion the following resolution was agreed to:—

Resolution.—The Board regrets exceedingly the action of the Mysore Government in leaving this important Station in the very serious position (in regard to its water supply) it now stands in by entirely cutting off the water supply to the principal Reservoirs in the Station and that too without in any way referring to the Municipal authorities, and in conclusion the Board would urge on the British Resident the absolute and urgent necessity for his adopting prompt measures to *permanently* restore to the Station its former water supply. At the same time the Board regrets the necessity of drawing attention to the objectionable tone of the D. P. W. Secretary to the Mysore Government in his letter No. 38, dated 8th March 1883, to the President of this Municipality. The meeting then dissolved.

Memorandum by Major E. P. Maltby, President, Municipal Commission, Civil and Military Station, dated 7th April 1883.

I wish to explain why I have cited this Special Meeting, so I have drawn up a short Memo explaining where our water came from and how it has been diverted.

2. As every one knows, till two years ago the Sampangi Tank and the Miller's Tanks (Nos. 1, 2, 3) were some of the chief tanks of the Station and they received a regular and unfailing supply every year.

3. The Sampangi Tank was fed from times prior to the formation of this Cantonment by a channel which ran across the watershed of the Alsúr Tank and started from the farside of the Look-out on the Bellary Road. In old days, the tank was the chief source of the water supply to the Pettah and there was and is now a great deal of cultivation carried on below it. After the Cantonment was formed, this tank supplied water to many people living in it.

4. Having been in Bangalore since February 1879 I can say that the tank filled regularly in 1879 and 1880. The cause of its filling was the supply of water brought down into it by this old channel.

5. No body can deny that, for now that the channel has been filled in the tank is dry, as it received no water in 1881 or 1882, in the former of which years (or in the latter part of 1880) the supply was cut off. I have been informed on the very best authority that the supply of water to this tank was deliberately diverted in accordance with the proposals of a Chief Engineer who did not consider the tank worth keeping up.

6. The first obstruction up the channel (but a very minor one) was caused by the late Dewan who bought a house through the grounds of which the channel runs. He filled in the channel and planted a garden (marked **A** on plan).

7. About the same time the Railway (Mysore D. P. W. I suppose) filled in the channel (at **B**) and the Mysore D. P. W. just inside (or outside the Palace grounds) filled up this channel at **C** (just by the Railway).

8. Further up the channel it has been dammed and an opening made (at **D** and **E**) in the bank and the water turned down into the valley which runs below Mr. Rice' house.

9. In fact the water which used to come into the Sampangi Tank did I believe run down to the Dharmambudhi Tank, but lately I believe it has been diverted into new contour channel across the valley of the Water-Supply Project.

10. I have followed this (Sampangi feeder) channel well past the Palace grounds and almost up to its source and except that it is much silted up there is nothing more required to fill the Sampangi Tank again than to have an archway put for the water to flow under the Railway, and to have the channel re-excavated for the 100 yards or so that it has been filled in close by the Railway. It would of course be necessary to remove the dam and close the vent above alluded to at (**D** and **E**), but that would be a very trifling expense.

11. The necessity of providing water is so urgent that we shall be failing in our duty if we do not represent the matter.

12. The Railway can easily build an arch without causing much delay to their traffic. One continually hears of vents in out-of-way places being destroyed and rebuilt in no time, so that we may conclude that this objection would not be a serious one.

13. I propose pointing out the objection that may be taken to this scheme. It may be urged that the water is wanted for the Reservoir on the Bellary Road.

14. I believe I am correct in stating that when the contour channels were laid out they were so disposed as not to interfere with our channel.

15. The contour channels for the Reservoir were laid down in 1877 and as I have before stated the Sampangi Tank always filled till the year 1881.

16. This undoubtedly proves that the contour channels of the Reservoir did not interfere with our channel or its gathering ground, and we may fairly assume that this non-interference was intentional. The object of the New Reservoir was to supply the Cantonment of Bangalore *not the Pettah* (*vide* para VII of D. P. W. Secretary's No. 7235—6577, dated 9th November 1868) with water, and it would be a clear waste of labor, &c., to make new contour channels to divert our supply into a new tank to be thence run into Bangalore by a new feeder when the experience of years has shown that our old channel did its work so well. That this channel was not interfered with by the New Reservoir is proved by an extract which I read out from letter No. 773 of 20th February 1882 from Superintending Engineer to the Assistant to the Resident.

"The scheme has in no way affected the supplies to these (Miller's Tanks) and the Sampangi Tank."

17. I admit that since the Mysore Government has destroyed this channel that they get the water as they have run a contour channel just below the breach made in our channel and the water is led, I believe, to the Reservoir and I know (as I saw to-day) that this contour channel is being deepened.

18. This merely proves that as the water is not required for the Sampangi Tank that they wish to divert it to the New Reservoir.

19. I have written about the Sampangi Tank at length as the supply to this and Miller's Tanks are brought in by the same channel.

20. A supply to Miller's Tanks is infinitely more important to this Municipality than one to the Sampangi Tank important though that is. Miller's Tanks (1, 2, 3) literally supply *a great portion of the Native part* of the Station with water.

21. As in the case of the Sampangi Tank, these tanks used regularly to receive a supply till the year 1881.

22. These tanks were fed by a channel that ran from point **F** on the plan from the Sampangi Channel down to No. 1 Reservoir through what are now the Palace grounds.

23. This reservoir filled and discharged into No. 2 which in turn discharged into No. 3.

24. I may mention that these reservoirs filled (under old conditions) regularly and as shown in 1881 (when they for the first time received no water from the Sampangi Channel) they held a two years' supply.

25. In consequence of the supply being diverted we had to get a little from the New Reservoir, but this supply was very small and added to the rain-fall not sufficient to fill one reservoir. The consequence is that No. 1 is now empty and No. 2 almost so, while No. 3 is rapidly going down and the wells in the town are fast drying.

26. After the Palace was established and the grounds enclosed, the old nullah was changed into an underground channel.

27. This channel was filled by a low bund being built across the Sampangi Channel which diverted some water to Miller's Tank, while the rest passed on to the Sampangi

28. This bund has been recently breached how I do not know. It must have breached or been breached within the last two years as it is only since then that Miller's Tanks have failed to fill. Finding no water came into Miller's Tanks last year though we had an unusually bountiful rain-fall, I directed the Engineer to examine the channel and the cause was found out (*viz.*, that the dam at the head of our tunnel had been breached). I set to work to repair the dam, but the Subordinate in charge of the Palace grounds objected on the score that damage would be done to the rockeries, &c. Not wishing to carry on a correspondence with him I awaited the return of Captain Kensington (Superintending Engineer) to explain matters to him.

29. Before seeing him however I received the letter which I now read.

30. In it Captain Kensington objects to the work on two grounds:—

(1.) That it will interfere with the supply to the Water-Works Reservoir?

(2.) That it will interfere with the drainage of the Palace grounds.

31. I infer from the 1st objection that it is only during the last year that the water of the channel has been led to the New Reservoir as in February 1882. Captain Kensington wrote that "the scheme has in no way affected the supply of these and the Sampangi Tank;" and that—

"Any supply which the Reservoir may receive and raise the level of the water above the silt of the sluice will be due to rain-fall that will probably bring supplies of water to the Cantonment tanks also." I have I think proved that we shall not interfere with the Water-Supply Reservoir, but merely resume our old supply.

32. This feeder to Miller's Tank passes through the Palace grounds and the supply having been cut off as above described, the lower part of the channel, which is open, has been laid out very tastefully.

33. It would have been impossible to form the rockeries, &c., which now exist along this water course, if the drainage sufficient to supply 20,000 or 30,000 people

with water passed down it; but now that nothing but local drainage is carried down, ornamental ponds, &c., have been constructed, islands formed, &c., and I can understand that the persons who planned this bit of landscape would naturally object to a utilitarian and unsightly drainage channel being again introduced, as the first shower would wash away most of these improvements.

34. I knew that we could not get any water to our tanks but by this way (owing to the Railway blocking the Sampangi Reservoir); but I did not know of the existence of all these newly-constructed ponds, &c., along our supply channel through the Palace grounds, so not knowing there would be any objection I directed the dam to be constructed.

35. The Superintending Engineer on behalf of the Mysore Government takes objection to our getting our supply this way, because the Palace grounds will be spoilt.

36. As matters at present stand, this means that we are not to get any more water into these tanks and that is such a serious matter that I felt bound to bring it before a Special Meeting.

37. Were the old channel to the Sampangi Tank open all along, the objection to our taking the water (as hitherto) through the Palace grounds would be immaterial, as it would be easy (if permission was granted) to take it lower down at A (opposite where Captain Macintire now lives) or at B where there is a small vent; but as I have been at pains to show, the channel has been filled in long before this point.

38. I believe that our water supply is being cut off quite unintentionally (*i. e.* so far as Miller's Tanks are concerned) and that if we refer the matter and explain it through the Resident to the Mysore Government, that they will arrange the matter, and as it can be easily done I consider it my duty to point out to the Board how it can be done.

39. If there was no other way than for it to be brought as hitherto through the Palace grounds, I trust and believe that His Highness' Government would not hesitate for a moment but would restore us our water supply even at the cost of dismantling the ornamental arrangements in the Palace grounds. But if the arrangement about building a bridge under the Railway (at the Palace entrance) is carried out and the channel cleared from the accumulations of silt deposited since 1877 when it was last cleaned out, the channel to the Sampangi Tank can be tapped to feed Miller's Tank at point (A) on the plan instead of at point (F), and we shall get as much water as ever and the Palace grounds will be spared.

From Major E. P. Maltby, President, Municipal Commission, Civil and Military Station, To the Assistant to the Resident in Mysore, No. 79, dated Bangalore, 10th April 1883.

In continuation of this Office No. * 57, dated 9th instant, I have the honor to forward herewith a copy of the Detailed Proceedings of the Special Meeting of the Municipal Commissioners under date the 7th April 1883 relating to the diminution of water supply to the several tanks in the Civil and Military Station of Bangalore.

* With this letter an Abstract of the Penalis Proceedings dated 5th April 1883 was submitted.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 6th June 1883.

Memorandum by K. SHESHADRI IYER, ESQ., B. A., B. L., Dewan of Mysore, dated Ootacamund, 28th April 1883.

The Resident has forwarded to me a copy of a Memo prepared by Major Maltby on the question of Water Supply to the Civil and Military Station of Bangalore and read by him at a Special Meeting of the Municipal Commissioners held on the 7th April 1883. The Resident has also asked me to make such arrangements as will secure a supply of water to Miller's No. 1 Reservoir, should rain fall within the next few days, reserving the question of the rights involved for future determination. I have accordingly arranged, as a temporary measure, to pass water from the Sampangi Channel to Miller's No. 1 Reservoir through the two existing covered drains, one at the Head Sluice behind the Palace Stables and the other in front of the Palace Gate, Mr. Henderson's dam constructed in 1877 some distance below the Head Sluice being removed, and the two feeders to the New Water-Supply Reservoir, also constructed in 1877 between the Head Sluice and the Railway, being closed. The existing covered drain in front of the Palace Gate will be either enlarged or a new one built by its side. These works have been ordered to be executed at once.

2. An immediate supply to Miller's Reservoirs being thus arranged for, the Government of Mysore now desire to place before the Resident the following facts in view as well to a final decision being arrived at on the general question of water supply to the Civil and Military Station, as to the issue of such orders as the action of the President of the Municipality and the language adopted by him and the Municipal Board with reference to the Mysore Government may seem to call for, upon a consideration of the real facts of the case.

3. Major Maltby in his Memo refers in the first place to the feeder to the Sampangi Tank and attempts to explain how this feeder used to bring a supply of water to Miller's Reservoir till alleged recent diversions by the Mysore Government. The branch of the Sampangi feeder north of the Mantapam on the Bellary Road was in existence before the year 1809. In that year the branch on the south side of the Mantapam was completed. Miller's Tank (*i. e.* No. 2 Reservoir) was not constructed till the year 1854. It must therefore be admitted that the Sampangi Tank has a prior claim to all the water received from the drainage area above the feeder in question and that Miller's Tank is entitled to receive from this feeder only such water as may not be required to fill the Sampangi Tank.

4. The natural drainage areas diverted by this channel in its course on the north and south sides of the Mantapam above referred to up to the saddle across the Cubbon Road near the Native Infantry Barracks are shown in the accompanying plan.

5. In 1859 the question of increasing the water supply of the Station appears to have arisen in connection with the new Cavalry Barracks. After a great deal of correspondence and inquiry into the matter, it seems that the construction of new high level reservoirs across the valley in which the Cantonment Bazaar is situated and the improvement of Miller's Reservoir were decided on. The works to these Reservoirs which are known as No. 1, 2, 3 and 4 were carried out during the years 1863 to 1867 as follows :—

(1.) The enlargement of Miller's Tank, (No. 2 Reservoir) completed in 1863.
(2.) The construction of the Railway or No. 3 Reservoir in 1864.
(3.) The construction of No. 1 Reservoir (above Miller's Tank) in 1866.
(4.) The construction of No. 4 Reservoir (below all the above) in 1867.

6. On the 18th September 1865, an estimate for the construction of a Head Sluice in the Sampangi Tank feeder was sanctioned. This Head *Sluice is situated at the back of the Palace Stables, and it is here that the President of the Bangalore Civil and Military Station Municipality now

*Marked **E** in the accompanying plan.

states that the supply to No. 1 Reservoir has been recently cut off, and he wishe to again restore this supply by re-constructing the bund which formerly existed a this point across the feeder.

7. The drainage of the Sampangi feeder above this point (E) is 143 acre consisting of—

52 acres in the watershed north-west of the Mantapam (See **A** in plan);
34+6 acres in the watershed north-east of the Mantapam (See **B** and **C** i the plan); and—
51 acres in the watershed south of the Mantapam (See **D** in plan).

Total 143 acres.

When the sluice at **E** was built, it was not intended to divert the whole of thi drainage from the Sampangi feeder into No. 1 Reservoir; and the estimate sanctione in 1865 did not provide for any dam across the feeder, but it did provide for shutter, thus clearly showing that the intention was to keep under control th drainage of the Sampangi feeder above the Head Sluice (**E**). The object of this sluic appears to have been partly to prevent the Sampangi feeder from breaching an overflowing during seasons of exceptionally heavy rain-fall, and partly to give a additional supply of water to Miller's Tanks as a temporary measure and pending th completion of the Water-supply Scheme. The earthen bund just below this point **E** was, as Major Maltby himself admits in para 27 of his Memo, a low one, which while it diverted some water to Miller's Tank, allowed the rest to pass on to th Sampangi Tank. This bund was breached before 1875.

8. The surplus water passing through the Head Sluice at **E** used to spread ove the adjoining waste ground, and some of it no doubt passed down to Miller's No. Reservoir. The maps of the Cantonment (tracings attached) dated 1861 and 186 show that no water courses existed close up to the Sampangi feeder, at the site o the Head Sluice. The soil here is very soft and friable, and within a short distance some 150 yards or so, there were deep water courses which would have rapidly cu back to the feeder bank had any large quantity of water passed through the sluice In 1875, when the work at the Palace was commenced, a large covered drain wa constructed to carry off water from the Head Sluice down to the water course leadin into Miller's No. 1 Reservoir; the soil had to be excavated before this drain was buil and it will therefore be seen that 10 years after the construction of the Head Sluice the water courses connected with this Reservoir were all at some distance from th Sampangi feeder and that no connection existed between the reservoir and the feeder til 1875, when the Engineer in charge of the Palace Works constructed the drain i question. If this drain had not been built and if the Head Sluice itself had been kep under control by means of shutters as intended in 1865, the Reservoir would scarcely get any water from the Sampangi feeder. But owing to the construction of thi drain and the removal of the shutters of the sluice, the Reservoir, as a matter of fact now receives a considerable supply from this source. This clearly proves the totally unfounded nature of the allegation made by the Municipal Board that the Mysor Public Works Department cut off from Miller's Reservoir, the supply which it for merly used to get through the Head Sluice.

9. This now brings us down to about the year 1876 or 1877 when the con tour channels of the New Water-Works Reservoir were excavated. On their com pletion about 1877 or before, the Executive Engineer in charge, Mr. Henderson, ha a dam (not the one which Major Maltby wishes to be reconstructed and to which re ference is made in para 7 above) thrown up some 100 yards below the Head Sluice a the point marked **F** in the plan, in order to divert the supply in the feeder into th New Reservoir. At this point **F** and at a lower point (**G** in the plan), the supply i the feeder has been diverted into the contour channel of the New Reservoir in accor dance with the sanctioned project. These diversions, it is scarcely necessary to add cannot appreciably affect the supply to Miller's Reservoir through the Head Sluice at **E**.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 6th June 1883.

10. The condition of the Sampangi feeder from the Head Sluice up to the point **H** near Dobbspet requires a few remarks. Just north of Melville House the feeder was cut through at the point **J** by the Railway about the year 1877 and consequently the supply received between the dam thrown up by Mr. Henderson and the Railway, or a drainage of 7 acres, has since then discharged into No. 1 Reservoir instead of going into the Sampangi Tank. Further in April 1878, during a heavy rain-fall of 3″, the water overflowed the road near the Native Infantry Lines and in order to prevent a breach in the road which here forms the bank of the feeder, the floorings of certain tunnels were lowered, but shortly after about September 1878, after another heavy fall of rain, when the water again overflowed the road and endangered the safety of the Native Infantry Lines, an opening was made at the point **H** to *temporarily* relieve the feeder just above Dobbspett and the drainage of 63 acres turned into No. 1 Reservoir. Miller's Tanks have consequently since then received the additional supply of some 70 acres formerly discharging into the Sampangi Tank.

11. It is therefore clear that since 1877, no supply has been cut off from Miller's Tanks, but that during 1878 and since then, these tanks received the drainage of 70 acres which used previously to go to the Sampangi Tank.

12. The contour channels of the New Water-Works Reservoir have intercepted since 1876—77 the drainage areas of the Sampangi feeder and Dharmambudhi Tank as follows:—

		Acres.
1.	Sampangi feeder as it was formerly	143
2.	Dharmambudhi Tank	171
	Total...	314

Of the 143 acres of the Sampangi feeder, as already explained in para 7, 51 acres belong to the watershed south of the Mantapam, that is, to the natural drainage of the Dharmambudhi Tank. About 38 acres of this drainage (*Vide* **D** in the plan) and about 21 acres from the watersheds N. W. and N. E. of the Mantapam (*Vide* **A** and B in the plan) making in all 59 acres, have been diverted from the Sampangi feeder by one of the upper contour channels of the New Reservoir marked **K**, **L**, **M** in the plan. This is the only loss of drainage area which can in any way affect the supply in the Sampangi feeder at the Head Sluice at **E**, but it is so small that it cannot appreciably affect the supply to Miller's Reservoir from this point. Major Maltby has evidently not examined the Sampangi feeder all along its course, for he does not refer to this loss of drainage area.

13. The real cause of none of these reservoirs filling during the last two years is the almost total absence of tank-filling rain. The Sampangi Tank, although its feeder has been in action only as far as the point **H** near Dobbspett since 1878, admittedly received ample supplies in that and in the two following years. This is attributable to good tank-filling monsoons and also to its very much silted condition; whereas the non-filling of the Miller's Reservoirs in 1881 and 1882, although in those years they received the additional drainage of 70 acres from the Sampangi feeder at the point **H**, was due to the absence of tank-filling rain, and more particularly to the fact that they were considerably increased in capacity between 1863 and 1867 and again during the Famine, without any corresponding increase being made to their drainage areas. This latter matter was never apparently considered during the Famine, and, if so, was not feasible, without tampering with prior rights. It is not therefore surprising that when a somewhat short tank-filling monsoon occurs, these tanks receive but very poor supplies as exemplified last year, when a large quantity of water was passed into them from the New Reservoir. It should, moreover, be here mentioned that the lowest Reservoir No. 4 has never discharged since its last increase in capacity during 1877, though, as admitted by Major Maltby, the Sampangi Tank which is said to fill very seldom, received full supplies in 1879 and 1880. This clearly shows that the capacity of Miller's Reservoirs is very much in excess of the supply available even in good monsoons.

14. To sum up the facts connected with these feeders, it seems that 70 years ago or earlier, the Sampangi feeder was excavated, that it diverted the natural supply of 314 acres from other drainages of which 51 acres belonged to the natural drainage of the Dharmambudhi Tank; that long after, in 1865, when several New Reservoirs had been constructed in the Cantonment Bazaar valley and the existing one increased in capacity, a Head Sluice was built in the feeder, but till 1875, (when the Engineer in charge of the Palace Works built the covered drain at **E**) little or no supply was received from this sluice, and this diversion of the Sampangi feeder was therefore practically inoperative; and that in 1876 or 1877, the contour channels of the New Reservoir diverted the drainage of 171 acres which belonged at the time of diversion to the Dharmambudhi feeder and that of 143 acres which belonged then to the Sampangi feeder. Nevertheless it is stated that the Miller's Reservoirs received ample supplies up to 1880 and failed to do so in 1881 and 1882, though during the latter two years they were under exactly the same conditions of drainage area as they were in 1878, 1879 and 1880. This clearly proves the want of tank-filling rains during 1881 and 1882, and a reference to the rain-fall registers of the New Water-Supply Reservoir and the Bowring Hospital confirms this conclusion.

15. Under these circumstances it will be seen that the statements made in Major Maltby's Memo of the 7th instant are without any foundation, as shown below:—

1*stly.* Major Maltby in para 26 of his Memo states that "after the Palace was established and the grounds enclosed, the old nullah was changed into an underground channel." There was no such "old nullah," and the "underground channel" near the Palace Stables was constructed in 1875 by excavation. (See para 8 of this Memo.)

2*ndly.* In para 28 of his Memo Major Maltby states that the dam across the Sampangi Nullah near this underground channel was recently breached. This was not the case. It was thrown up probably in aid of the Head Sluice at **E** which itself was a temporary expedient as explained in para 7 of this Memo, and it was breached before 1875, because it was an obstruction to the flow of water in the Sampangi Channel which had to be diverted into the New Reservoir in accordance with the project sanctioned and executed by the British Government. Major Maltby infers that the dam was recently breached merely because it was only during the past two years that Miller's Reservoirs failed to fill!

3*rdly.* Major Maltby makes a similar unreasonable inference in paras 4, 5, 15 and 16 of his Memo. He concludes that the contour channels of the New Reservoir did not, as originally made in 1877, interfere with the Sampangi Channel, because Sampangi Tank used to fill till 1880. Because the tank did not fill in 1881 and 1882, he at once arrives at the conclusion that His Highness' Government tampered with the channel in 1881.

4*thly.* In paras 8 and 9 of his Memo Major Maltby refers to the dam and channels to the New Reservoir at the points **F** and **G** in the accompanying plan. These works were constructed in 1876 or 1877 by the British Government as part of the Water-Supply Scheme, and not *recently* by His Highness' Government, as seems to be too readily assumed.

5*thly.* In para 7 of his Memo Major Maltby says that the Railway filled up the channel about the time Mr. Rangacharlu filled up the portion of the channel which was within his compound. This was not the case. The Railway cut through the channel **in 1877**: on the north of the Railway, part of the channel was filled in to protect the Railway: as no water could, owing to this cause, come down the channel to pass through Mr. Rangacharlu's compound, that gentleman had the portion within his compound filled in.

6*thly.* In para 10 and elsewhere, in his Memo, Major Maltby proposes to carry the channel under the Railway. A careful examination of the spot would

have convinced him that no such proposal was feasible, for the level of the Railway is much lower than that of the channel on either side: an aqueduct above the Railway or a syphon under it would therefore be required, and either work would be attended with great practical difficulty.

7thly. In para 10 of his Memo Major Maltby says "I have followed this channel (Sampangi feeder) well past the Palace grounds and almost up to its source, and except that it is much silted up, there is nothing more required to fill the Sampangi Tank again than to have an archway put for the water to flow under the Railway." An inspection of this channel "almost up to its source" must have revealed the fact that part of its drainage has been diverted by the upper contour channel of the New Reservoir (marked **K, L, M** in the accompanying plan). This contour channel is no recent construction by His Highness' Government. It was excavated in 1876—77 as part of the Water-Supply scheme.

It will be seen from the foregoing summary that the Memo which Major Maltby ead at the Special Meeting of the Municipal Board was full of statements not founded pon fact. The Board were misled by this Memo into making unwarranted statements s to the intention and action of His Highness' Government. To all such statements, conclusive answer is furnished by the fact that whatever was done to interfere with ie supply of water in the Sampangi Channel was all done in and before 1877 and in ccordance with a scheme initiated and carried out by the British Government; and iat since the Rendition, nothing whatever has been done by the Mysore Government alculated to interfere in the smallest degree with the supply of water to any Reservoir within the Civil and Military Station.

16. I now come to consider the means whereby an ample supply of water may, i future, be insured to the Civil and Military Station. The New Water-Works Reervoir has not fulfilled the expectations formed of its capability. Major Maltby seems o regard it as a mistake, for in para 16 of his Memo he writes as follows:—"It ould be a clear waste of labor, &c., to make new contour channels to divert our water upply into a new tank to be thence run into Bangalore by a new feeder, when the xperience of years has shown that our old channel did its work so well." In para 2 he ays that the Miller's Reservoirs and the Sampangi Tank used to receive till two years go "a regular and unfailing supply every year," and in para 24, he adds that Miller's eservoirs filled regularly "under old conditions," and that in 1881 they held a vo years' supply. Under such circumstances, it would be right to restore the "old onditions" by revising the arrangements made in 1876 and 1877 in connection with ie New Water-Supply Project, and by restoring to the Civil and Military Station all ources of water supply it could possibly have had before the construction of the New eservoir and its contour channels. Such a revision of the arrangements of 1876 id 1877 would, judging from the opinion of Major Maltby, be acceptable to the lunicipal Board: it would also be convenient to the Mysore Government, for the reent proceedings of that Board show that it would be extremely undesirable to reognize any joint claim on the part of the Mysore Government and the Civil and Mili-ry Station to the water of the New Reservoir. The Durbar is accordingly prepared revise at once the arrangements of 1876 and 1877. With this object the whole of e drainage on the north side of the watershed from the Mantapam (*Vide* **A, B** and in the plan) will be restored to the Sampangi feeder by breaching the upper conur channel of the New Reservoir at **L**. Out of the 51 acres belonging to the natul drainage of the Dharmambudhi Tank formerly diverted by the south branch of ie Sampangi feeder, the 13 acres below the new contour channel will still drain into iat feeder, the remaining 38 acres alone draining into the New Reservoir which ill hereafter supply the Dharmambudhi Tank. The Head Sluice at **E** will be either moved and the feeder bank blocked up, or it will be kept under control by means shutters as originally intended. Then the existing dam (100 yards below the ead Sluice and at the point **F** in the plan) thrown up by Mr. Henderson will be moved, and the channels near the points **F** and **G** leading from the Sampangi feeder

to the New Reservoir Channels will be closed. The Sampangi feeder will thus be led *without any diversion of its supply* to the point **N** in the plan, whence it will be taken by an underground masonry drain across the entrance to the Palace to the Railway at **O** under which it will pass through the existing opening (to be enlarged if necessary) after which it will cross the road at **P** and be dropped into a natural watercourse of No. 1 Reservoir at **Q**. In addition to the *whole* supply of the 105 acres situated above the point **E**, about 7 acres of drainage between this and the Railway, and about 12 acres between the Railway and Mr. Rangacharlu's house belonging formerly to the Sampangi feeder, will be also given to Miller's Reservoir. The drainage area thus allotted to Miller's Reservoir is about 124 acres instead of the 143 acres above the sluice at **E** which the Municipality apparently claim.

17. The above work will be carried out and the supply through the feeder given on the understanding—

1*st*. That the Civil and Military Station has hereafter no right whatever to the water in the New Reservoir;

2*nd*. That they allow the lowering of certain tunnels across the Infantry and Cubbon Roads and the deepening of the channel connected therewith to enable the Sampangi Tank to receive the whole supply from the area above its feeder situated between Mr. Rangacharlu's house and the saddle across the ridge in Cubbon Road near the Native Infantry Barracks. This work is moreover necessary for the safety of the road and the Native Infantry Lines and—

3*rd*. That the work of removing the silt from the Sampangi Channel and clearing its drainage area of grass, &c., be carried out from time to time by the Mysore Government upon the requisition of the Station Municipality and at their cost.

18. His Highness' Government do not wish to make the smallest difference between the Civil and Military Station and the Pettah in this question of water supply for they consider it to be their duty to supply as much water as possible to both places But the New Reservoir which was intended for both the Civil and Military Station and the Pettah has not hitherto filled to such an extent as will justify the Government undertaking any elaborate scheme of distribution, nor is there any prospect of its filling better in future years, especially if the work referred to in para 16 above be as is proposed, carried out immediately. It has already been stated that a large extent of the natural drainage of the Dharmambudhi Tank which used to supply the Pettah has been diverted into the New Reservoir which is above it. There is thus an obligation upon the Government to restore the water supply of the Pettah containing a population of 62,317 souls, at least to the condition it was in before the construction of the New Reservoir. On the other hand, it will be seen that the New Reservoir has not deprived the Civil and Military Station of any sources of water supply, except perhaps the drainage of 38 acres belonging to the natural watershed of the Dharmambudhi Tank diverted many years ago into the Sampangi feeder, and intercepted in 1876-77 by the contour channel **L**, **M**, of the New Reservoir. This drainage area is so small that it can make no appreciable difference, but, if required, even this can be restored to the Sampangi feeder. When this is done, not one drop of water which formerly used to find its way either into the Sampangi Tank or into Miller's Reservoir will go into the New Reservoir. Upon this ground alone it would be just to decide that when the Mysore Government carry out the work specified in para 16, the Civil and Military Station shall cease to have any claim for a supply of water from the New Reservoir. The Durbar of course will be always willing to open out the sluices of this Reservoir and to let into Miller's Reservoirs all water which may not be required for the legitimate wants of the large population of the Pettah; but any arrangement recognizing a joint *claim* in a matter of this kind must be more or less unsatisfactory, and it is only with the object of avoiding such an arrangement that the present proposal is made.

19. Copies of correspondence which took place between the Mysore D. P. W. Officers and Major Maltby are attached, and it will be seen from them that the latter officer took upon himself without any reference to the Mysore Government the construction of a dam across the Water-Supply Feeder situated at a considerable distance outside the limits of the Civil and Military Station. His action was unauthorized and naturally provoked the resistance of the Mysore D. P. W. Officers. If Major Maltby wished to have had any work done within Mysore Territory, and had had the ordinary courtesy of asking the Mysore Government for permission to do it, such permission would doubtless have been given, or at any rate some alternative work calculated to secure the object in view would at once have been executed. This obvious course was not adopted, nor was any intimation given to the Mysore Government through the British Resident. As it was, the first intimation that the Durbar received of what the Municipality wished to be done in connection with the water supply of the Station was through the newspapers which published a report of the proceedings of a Special Meeting of the Municipal Commissioners.

20. It may not be out of place here to make a few observations on what was said at the Special Meeting of the Municipal Commissioners held on the 7th instant, regarding the powers of the Municipal Board under Sections 163, 164 and 194 of the Municipal Regulation of the Civil and Military Station passed in 1883. The Municipal Regulation of 1871 applied to both the Town and Cantonment of Bangalore, but when after the Rendition, His Highness the Maharaja granted a portion of the old Cantonment to form the Civil and Military Station, for the purpose of a British Cantonment being maintained therein, it was found necessary to make several verbal alterations in the old Regulation of 1871, so as to adapt it to the altered system of administration. One of the alterations thus made substituted the words "Resident in Mysore" for the words "Chief Commissioner of Mysore." The result is that Sections 164 and 194 of the revised Regulation of 1883 (corresponding with Sections 165 and 195 of the old Regulation) give to the Municipal Commissioners of the Civil and Military Station the necessary powers to construct dams, aqueducts, drains, &c., *outside Municipal limits*, with the sanction of the Resident and in accordance with plans approved by him. The old Regulation required the Chief Commissioner's previous sanction and approval of plans, and as the authority of the Government of India which passed that Regulation extended till Rendition over the whole Province, the Municipal Commissioners' jurisdiction for the purpose indicated could till then be exercised in any part of the Province. But since the Rendition, direct British jurisdiction is restricted to the Civil and Military Station, and the revised Regulation of 1883 can therefore have operation only within the Civil and Military Station; the jurisdiction beyond Municipal limits, vested in the Municipal Commissioners by Sections 164 and 194 of this Regulation, can thus be exercised only in such portions (if there be any) of the Civil and Military Station as may be beyond Municipal limits, and these sections cannot confer on Municipal Commissioners or others any power of action within the Territories under the Maharaja's direct Administration.

Para 9 of the Instrument of Transfer requires the Maharaja to carry out in the lands adjoining British Cantonments, such sanitary measures as the Governor-General in Council may declare to be necessary. It looks to the Maharaja to do what is required, and does not authorize the Municipal Commissioners or others to do it. As regards works required to be carried out in Mysore Territory for the purpose of supplying water to British Cantonments, the Instrument of Transfer makes no provision, but the Maharaja's Government are always willing to do whatever may be required by the British Government in this matter. They only object to the Municipal Commissioners of the Civil and Military Station or their President arrogating to themselves any powers of action and interference within Mysore Territory, when such powers have not been vested in them by His Highness the Maharaja.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 6th June 1883.

21. In conclusion, it is only necessary to add that the Durbar very much regre that Major Maltby's action in this matter was such as called for the just resistanc of the Mysore D. P. W. Officers, and that imputations against the Mysore Govern ment have been made and published without proper enquiry and upon incorrect in formation, both by that officer and by the Members of the Board present at th Special Meeting at which he presided. The Durbar will therefore feel muc obliged if the Resident will issue such orders as will prevent a repetition of simila occurrences in future.

Note by Colonel R. H. Sankey, R. E., dated Ootacamund, 30th April 1883, on Majo Maltby's Memo of 7th April 1883.

As I observe from this Note that a good deal is here stated on an insufficien acquaintance with the facts as to Sampangi Tank at Bangalore and the position it oc cupies in regard to the general water supply of the Cantonment, it may be as well a once to say that, till at least the Rendition of Mysore, it was a purely Military tank that no irrigation was ever allowed to take place from the sluice; and that it wa only on sufferance on the part of the Military authorities that a few people residing i the Pettah were allowed to draw water from it at the west end and to fill some wate carts from the south-east corner.

No body from the Cantonment Bazaar to the best of my knowledge ever drew a drop of water from it even in the most severe scarcity.

Notwithstanding the facts above mentioned that water was never permitted t be drawn from the sluice and that but little was drawn for domestic purposes by th few inhabitants of the Pettah, &c., in the immediate neighbourhood, the tank to m personal knowledge (extending over some 17 years) never once filled excepting i the year 1874 (probably the year of most exceptional rain-fall in this century) whe for a few days the small ditch at the south-east corner which answers as a waste wei channel, (not over a yard wide) was cleared out and a little surplus water flowed off All cultivation below the tank depends on wells alone.

It is not too much to say that probably there is no tank in Mysore whose supply has so constantly failed and been altogether so unsatisfactory.

Till 1861 the supply channel from the Mantapam Hill, originally made in th early part of the century, had remained untouched, but in that year owing to th insufficient supply of Miller's Tank as derived from its own proper catchment, th late General Lawford as an act of grace to the Cantonment Bazaar had a sluice con structed at a point immediately south-west of what is now known as "Dobbs Pettah" [I the old Public Works Department records this was always alluded to as "Sluice **A**"]

No further draughts were made on the Sampangi supply channel, but when th general scheme for supplying water by gravitation from the New Reservoir came up for consideration, it was held that when this was once in full operation the claim and relative importance of the chain of tanks at head of the Cantonment Bazaar (Nos I, II and III and certainly of Sampangi) would necessarily become of very secondary consideration. A full supply was to be provided for at 10 gallons per head fo the whole population of the Cantonment Bazaar, &c., and this it was thought would suffice for all practical purposes.

Till however the scheme was completed it was decided to feed the chain of Reservoirs Nos. I, II and III partly through a new sluice (now called the "Head Sluice") immediately above the Maharaja's Stables and partly through the old Sluice **A** above adverted to; at least till it should be interfered with by the pipe head cistern and the Railway.

In aid of the action of the new Head Sluice a low earthen bund was thrown across the Sampangi Channel immediately to the south, but as the flow of water cut

a very deep nullah through the Maharaja's Palace grounds, the bund was breached. Subsequently on my own orders the nullah was taken advantage of to construct the masonry drain (alluded to in the papers) with the object partly of answering the original purpose for which the Head Sluice had been made, and partly to supply a ready means for dealing with the drainage of the very steep ground forming the Palace Park on that side. Contour drains were in fact to be led into it and thus prevent the soil being unduly washed off.

The next dam adverted to, *viz.* Mr. Henderson's, was made by that officer on completing the feeding channels for the New General Reservoir. Its action, it will be seen from the foregoing observations, would, while arresting upper supplies which had previously reached the old Sluice **A** and the Sampangi Tank, leave the "Head Sluice" as it was.

From the above it will be clear that—

(1.) The Sampangi Tank has never played the slightest part in the water supply of the Cantonment Bazaar (the special province of the Municipal Board) and only affects such few interests that if arrangements are made for supplying the three small "Guntas" which exist at its three angles nothing further is needed.

(2.) The chain of tanks known as Nos. I, II and III had never any recognized right to receive a supply from the old Sampangi Channel, but as an act of grace a supply was given in 1861 by the then Chief Engineer, it is believed on his own personal authority.

(3.) Subsequently as a temporary arrangement the so called "Head Sluice" was built to answer as far as possible the same purpose as a temporary measure till the General Water-supply Scheme should be completed.

As I understand that the Mysore Government are prepared to not only utilize the Head Sluice for the purpose for which it was originally constructed by me, but further divert any further supplies that may reach the channel down to the point where crossed by the Railway, not only are all the previous rights of supply to the chain of reservoirs secured, but also the additional supply to which as shown they had no inherent right will be maintained.

To any one acquainted with the conformation of the ground it is needless to say that water obeying the ordinary law of gravitation must, after leaving the Head Sluice or other opening in the Sampangi Channel, seek its lowest level in the chain of tanks, and that neither the rockeries nor any of the works that have been carried out in the Maharaja's Park can in any way interfere with or arrest the flow. The singular statements which have appeared in relation to this matter are in fact based on a misapprehension of the most ordinary physical laws, and on complete ignorance of the form of the ground.

The paper I am commenting on contains a number of other misleading remarks, but it is needless to deal with these.

With reference to the works of the New Reservoir and the general supply of water for the Bangalore Cantonment Bazaar, I hope to have an opportunity ere long of stating my views in a manner which I hope may prove of some service to the public.

Letter No. , **dated** , **from the Resident in Mysore forwarding copy of letter No. 272—15, dated 7th May 1883, to the President, Municipal Commission, Civil and Military Station of Bangalore.**

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 6th June 1883.

From the Assistant Resident in Mysore, To the President, Municipal Commission Civil and Military Station, No. 272—15, dated Bangalore, 7th May 1883.

I have the honor by desire of the Resident to acknowledge the receipt o your letters Nos. 57 and 79 of the 9th and 10th April 1883, enclosing copies of th Proceedings of a Special Meeting of the Municipal Board held on 7th idem, and of a Memorandum read by you at that Meeting on the question of the water supply of th Civil and Military Station. In reply I am to forward for the information of th Municipal Board, a Memorandum from the Dewan of Mysore dated 28th April 188 with plans, and a Note prepared by Colonel Sankey, C. B., late Chief Engineer o Mysore, dated 30th idem.

2. After a careful consideration of the papers before him the Resident regret to have to pronounce your action in this matter as irregular and very injudicious At the outset you acted quite irregularly, in ordering, without any previous reference to the Resident or to the Mysore Officers, the re-construction of the dam just belov the Head Sluice in the Sampangi Channel, situated outside Station limits. As a matte of fact this dam was breached in or before 1875, and yet without any inquiry int facts, you came to the conclusion that "it must have been breached within the las two years," from no better premise seemingly than that Miller's Reservoir did not fil in those years! and, believing you had made a new discovery, you forthwith com menced its unauthorized re-construction. The Resident is aware that your action ha been formally approved by the Municipal Board, but he deems it impossible to uphol it on any just or reasonable ground. As already shown, your assumption of a recen breach was unfounded, and, as pointed out by the Dewan in his Memo, the Boar could not under the Municipal Regulation of 1883 have any powers of action within Mysore Territory. But apart from the facts of the case, and the law relating to your jurisdiction, the Resident is of opinion that ordinary official propriety alone should have suggested to you a course of action very different from the one you adopted. Such interference as yours, in the present instance, would not have been tolerated by the Chief Engineer of Mysore previous to Rendition, and it is *a fortiori* more objectionable now. If the positions had been reversed, and the Mysore State officials had attempted to do within Station limits, what you attempted within Mysore Territory, the Resident is satisfied you would promptly have resented such action as highly improper and the Board would doubtless have cordially supported you.

3. The Board have brought to the Resident's notice the objectionable tone of Captain Kensington's letter to you. If an official communication was necessary, the Resident fails to see, having regard to your action which called it forth, in what other terms the letter could have been couched. Captain Kensington asked under what authority the work was being executed in Mysore Territory, expressed surprise at no previous reference and stated until he heard further he should prohibit its execution. This was under the circumstances strictly within his right, and the Resident cannot regard the letter as wanting in official courtesy.

4. Upon receiving Captain Kensington's letter you brought the matter to the notice of the Resident, who at once placed himself in communication with the Durbar, and steps were actually being taken to decide and execute what might be feasible Your obvious course was to have refrained from further action, and to have left it to the Resident to arrange what was required; furnishing the Resident, if you thought proper, with any additional information you might acquire. Instead of this, you proceeded to prepare a Memorandum on the subject, founded upon your own local observation and on hasty and incorrect information, and placed it before a Special Meeting of the Board which you called for the purpose. It will be seen, from the Dewan's and Colonel Sankey's Memos, how very superficial and erroneous your Memo is. By the statements it contained, and the imputations it conveyed, the members of the Board and the public were led to believe that the Mysore Government had, by its action since Rendition, removed the sources of supply from Miller's Reservoirs;

whereas the fact is, that all the action attributed by you to the Mysore Government was deliberately taken by the British Government some years previous to Rendition! From the fact that the tanks in the Civil and Military Station did not fill in 1881 and 1882, you very unreasonably infer that the Maharaja's Government must have recently tampered with the supply channels. These tanks filled in 1878—79, and 80 when they were under exactly the same conditions as to drainage area as in the years 1881 and 82 when they failed to fill. The fact is that, as was the case in Mysore and other places in the neighbourhood, the tanks in the Civil and Military Station (including Alsúr which it is not pretended was in any way interfered with) all failed to fill in 1881 and 1882 because, in spite of a good general rain-fall, of a scanty fall of *tank-filling* rain.

Under such circumstances the Resident very greatly regrets the language used by the members of the Municipal Board and the imputations thereby conveyed against the Mysore Government. Such language was scarcely called for, if the facts had been as supposed, but with the facts as they are it was singularly unfortunate and ill-judged. Amongst other strong expressions made use of on the occasion the action of the Mysore Government was pronounced to be "very ill-judged and ungracious"; it was said to be "simply setting the Municipality at defiance"; and the Board "exceedingly regretted the action of the Mysore Government in leaving the Station without water by cutting off the supply to the principal reservoirs"; and it was declared that the Board must "insist upon," and "demand," certain action on the part of the Mysore Government. Again, the preposterous idea was set on foot that the water supply for 20,000 or 30,000 of the inhabitants had been tampered with, for the sake of a few ornamental arrangements in the Palace grounds!!

Language such as this may perhaps be justifiable when there is the clearest proof of the facts implied by it, but when, as in the present case, such facts have been assumed upon no proof and no inquiry made to ascertain the truth, the use of such language is calculated to do much harm and to diminish public confidence in the deliberations of the Board.

5. From your experience in Mysore you must be well aware that the Maharaja's Government are no more desirous than the Municipal Board itself, to deprive the Civil and Military Station of its water supply. The Resident would have expected you to use your voice and influence in restraining the extravagant language, so needlessly used at the Meeting; but instead of doing so, you would appear rather to have encouraged it by remarks calculated to confirm the mistaken views expressed.

6. With regard to remedial steps, it will be seen from the Dewan's Memo that the Durbar on receiving intimation from the Resident of what was required, at once ordered the necessary works to be executed by its officers, in order that Miller's Reservoirs may receive a plentiful supply of water, even more than they used to receive from the Sampangi feeder. This has been decided on because of the failure, so far, of the scheme, for the furtherance of which the supply channels of these reservoirs were to some extent interfered with by the British Engineers when Mysore was under British administration.

7. In para 16 of his Memo the Dewan indicates the works which the Mysore Government are prepared to execute, with a view to revise the arrangements made before 1877, in connection with the New Water-Supply Scheme. The Resident believes that these works will secure to Miller's Reservoirs in ordinary seasons, an ample supply of water, and this appears also to be your own opinion. The Durbar has accordingly been requested to cause these works to be executed as soon as possible. The works referred to in clause 2, para 17 of the Dewan's Memo, should also be carried out, so as to allow of some supply to the Sampangi Tank.

8. As regards the New Reservoir on the Bellary Road, it must be admitted that hitherto it has not in any degree answered the purposes for which it was constructed. It is in Mysore Territory and under the control and management of Mysore

Officers. If, as the Resident believes, Miller's Reservoirs receive a sufficient supply of water, under the arrangements referred to in the preceding para, there will be no occasion for asking the Mysore Government for more. If, on the other hand, Miller's Reservoirs fail to supply adequately the wants of the Civil and Military Station, and it should become necessary to devise and carry out a new scheme of water supply, (such for instance as the lifting of water from large wells constructed immediately below the New Reservoir), the Resident has no doubt whatever that the Durbar will readily fulfil its obligations to the British Government, by granting additional land for the execution of such a scheme.

In this view it is unnecessary now to consider any formal conditions in the matter.

9. In conclusion it is only necessary to add that should the Board require any work to be done in Mysore Territory, such for instance as the removal of silt from feeders of Station Reservoirs, the clearing of the drainage area of such feeders, &c., you should make application to the Resident who will ask the Durbar to cause the execution of the required work. In like manner, it has been arranged with the Durbar that official correspondence shall hereafter be carried on between the officers of the Civil and Military Station and of the Mysore State through the Resident on one side and the Dewan on the other. This rule will in future be strictly observed by all officers in the Civil and Military Station.

No. 1078-9—5, DATED 6TH JUNE 1883.

ORDER.—Copies of the foregoing correspondence will be forwarded to the Secretary, Public Works Department, and to the President of the Bangalore Town Municipal Board, for information and guidance.

2. The Secretary, Public Works Department, will be requested to make arrangements for prompt compliance with such requisitions for work to be executed within Mysore limits as may be received from the President of the Civil and Military Station Municipality through the Resident. The cost of such work will of course be borne by that Municipality.

3. The Resident will be requested to issue orders for the execution of the work specified in clause 2 of para 17 of the Dewan's Memorandum of the 28th April 1883.

4. The attention of all Officers of the Mysore Government is drawn to the arrangement entered into between the Durbar and the Resident and referred to in the concluding paragraph of the Assistant Resident's letter above read as regards official correspondence between the Officers of the Mysore Government and of the Civil and Military Station.

Puttu Rao ...	Revenue 3rd Munshi ...	54	26½	20

5. The appointment of Batta Amin Venkatachari, Batta Amin Shamanna, an Revenue Peon Srinivasaiya as Shekdars, as well as the proposal to employ as Polic Constabl s or Revenue Peons the menial servants referred to in the Proceedings o 11th April 1883, are approved, and the reduction of the Distillery Superviso Venkatachari to the post of Police Deputy Munshi for inefficiency is sanctioned.

6. The vacancies in the Kadur District available for supernumerary official are therefore as follows :—

	Pay.
District Revenue Sheristadarship ..	Rs. 100
District Revenue Head Munshiship ..	,, 50
Assistant Commissioner's Office Head Munshiship ..	,, 50
Distillery Supervisorship	,, 40 + 10
District Revenue 3rd Munshiship . ..	,, 20
Statistical Clerkship .. .	,, 20

7. The Deputy Commissioner will be requested to try as Revenue Sheristada on probation, E. Shama Rao, formerly Revenue Sheristadar of the Bangalore Distric and recently Deputy Amildar of Channapatna and now a supernumerary withou employ.

8. To two of the three vacancies on Rs. 50 Vyasa Rao and Guru Rao of th late Hassan District may be appointed, and in the arrangements made to fill up th third vacancy, a Clerkship on Rs. 35 may be given to Mr. Middleton, who from hi antecedents is not likely to make a good Sandal Daroga.

9. The Sandal Daroga's appointment now held by Gopalakrishnaiengar should be abolished as recommended in letter No. 588 as soon as the Deputy Commissioner is able to make other provision for that official.

10. The appointment of Sitaramaiya as Revenue 3rd Munshi and of Chinnasami Chetti to the Kadur Taluk is also sanctioned.

11. The Statistical Clerkship on Rs. 20 may be temporarily filled up as it is probable that the vacancy will be required for one of the officials thrown out by the abolition of the Shimoga Sub-Judge's Court.

READ—

Letters from the Deputy Commissioner of the Shimoga District, No. 212—146 of the 25th May 1883 and 233—162 of the 31st May 1883.

No. 1235-7—85, DATED 16TH JUNE 1883.

ORDER THEREON.—With the letters above read, the Deputy Commissioner of Shimoga submits proposals for providing for the supernumerary officials for whom provision was directed to be made in that District in the Dewan's Proceedings Nos. 37 and 963-64, dated 11th April 1883 and 23rd May 1883. These proposals involve in several instances the appointment of officials to posts for which they are not qualified. It is obviously not desirable to have regard merely to the salary last drawn by a supernumerary official and to employ him in an appointment of equal salary without reference to his qualifications for that particular appointment. Salaries are fixed with reference to the qualifications required, and an arrangement whereby an official is made to enjoy the salary of one office and to do the work of another is always unsatisfactory and must not be resorted to except as a very temporary expedient to meet some pressing necessity. In this view, it is undesirable to appoint Devarasaiya, (Sheristadar of the late Sub-Judge's Court), who does not know English as Deputy Clerk in the Deputy Commissioner's English Office, and to make him exchange work with an English-knowing Revenue Accountant.

It would be much better at once to appoint him to a Head Munshiship in the Deputy or Assistant Commissioner's Office. It is noted that no report has been received in this Office as to how the Judicial Head Munshiship (vacant by the appointment in November last of Subba Rao as Amildar of Kadur) has been filled up permanently.

2. It is apparently not necessary to retire both the Sheristadars of Nagar and Channagiri Taluks for the purpose of providing for the officials thrown out in the recent reductions, for it is observed that Anantaramaiengar proposed to be appointed Sheristadar of Channagiri is not one of the officials for whom provision was directed to be made in the Dewan's Proceedings already quoted. He is said to be a "Supernumerary of 1880," and to be now acting as Revenue Deputy Munshi on Rs. 30. The Deputy Commissioner will report whether he is an official who was ordered to be retained as a supernumerary, and if so upon what pay or allowance, and what substantive appointment, if any, he now holds. His Service Register must also be submitted.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 16th June 1883.

3. In the meantime, it is only necessary to retire the older of the two Talu Sheristadars whom the Deputy Commissioner recommends for retirement, and his plac might advantageously be given to Manjanathaiya, an official of the old stamp who do not know English and who is better fitted for a Taluk Sheristadarship than for the Police Munshiship in the Deputy Commissioner's Office, which requires some knowledge of Police Rules and Circulars. Subba Rao, (Sayer Head Accountant), will probably make a better Police Munshi than Manjanathaiya; he may therefore be appointed as Police Munshi, Ranganna being confirmed as Sayer Head Accountant.

4. Mr. Smith, 3rd English Clerk on Rs. 35, is proposed to be appointed Distillery Supervisor, but he has had no experience of Distillery business, and is better as Clerk in the English Office. He has himself submitted a petition suggestive of his own probable unfitness for the particular post for which he is recommended. He may therefore be appointed as Deputy English Clerk in the place of M. Minor proposed to be retired. This will allow of provision being made for Mr. D'Vaz (Clerk, late Sub-Judge's Court) without any reduction of his pay. On the other hand, Raghunatha Rao, the present Distillery Supervisor, appears from previous correspondence regarding him which took place in connection with the revision of 1880, to be a man who may, with advantage, be retained in his present appointment for some time longer.

5. The Dewan accordingly directs the following retirements and appointments:—

(1.) *Tirunaranaiengar*, Sheristadar, Channagiri Taluk on Rs. 40, to retire, and either Manjanathaiya (Deputy Munshi, 1st Assistant Commissioner's Office on Rs. 35) or Ramachandra Rao (Head Munshi and Nazir, late Sub-Judge's Court on Rs. 35) to be Sheristadar of the Channagiri Taluk on Rs. 40. If the former is appointed as Taluk Sheristadar, the latter should be appointed as Deputy Munshi, 1st Assistant Commissioner's Office, on Rs. 35.

(2.) *M. Minor*, Deputy English Clerk in the Deputy Commissioner's Office, to retire. Mr. Smith, 3rd Clerk on Rs. 35, to be Deputy Clerk on Rs. 50, and Mr. D'Vaz, (Clerk on Rs. 35 in the late Sub-Judge's Court), to be 3rd Clerk on Rs. 35.

(3.) *Anantaramaiengar*, (Munshi, late Sub-Judge's Court), to be English Clerk on Rs. 25 in the Deputy Commissioner's Office in the place of Narasimhaiya transferred to the Comptroller's Office.

(4.) *Krishnappa*, Revenue Record-keeper, District Office, to retire, and Srinivasa Rao, (Revenue Accountant on Rs. 30), to be Revenue Record-keeper on Rs. 35. Alasingaraiengar, Revenue Accountant on Rs. 25, to be Revenue Accountant on Rs. 30, and Naranaiengar (Munshi, late Sub-Judge's Court on Rs. 25), to be Revenue Accountant on Rs. 25.

(5.) *Abdul Karim*, (Police Head Munshi on Rs. 40), to be Police Inspector of Channagiri *on probation* on Rs. 35 + 10 horse allowance. Subba Rao, (Sayer Head Accountant), to be Police Head Munshi on Rs. 40. Ranganna to be Sayer Head Accountant on Rs. 35. Venkat Rao (said to be a Supernumerary of 1880), to be Revenue Deputy Munshi on Rs. 30. Gundappa, (Nazir's Munshi, late Sub-Judge's Court), to be Treasury Accountant on Rs. 25 *subs pro tem.*

(6.) *Akbar Khan*, (English Clerk, late Chitaldroog Sub-Judge's Court), to be Police Inspector on probation on Rs. 35 + 10 horse allowance, *vice* Annaji Rao deceased.

(7.) *Sangappa*, Shekdar of Bidare on Rs. 20, to retire; and Subba Rao, Head Gumasta of Davangere, to be Shekdar of Bidare.

(6.) The Deputy Commissioner is requested to report, with reference to the remarks in para 1 above, what provision he would recommend for Devarasaiya and how he would propose to fill up the Judicial Head Munshiship in his Office permanently.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 26th June 1883.

7. The only remaining supernumerary official belonging to the establishments of the late Subordinate Judge's Courts at Shimoga and Chitaldroog for whom provision remains to be made, is Anantaiya (Munshi, late Shimoga Sub-Judge's Court, on Rs. 20). As the Deputy Commissioner has been unable to provide for him but reports that a Munshiship in the Hassan Munsiff's Court is vacant, it is probable that the Chief Judge will be able soon to give him an appointment.

8. The proposals made by the Deputy Commissioner in letter No. 212-146 for the disposal of the supernumerary officials of the Davangere Taluk are approved.

9. The Establishment lists of the District and the Assistant Commissioner's Offices will be forwarded for reference.

Police Diaries and other papers submitted with docket No. 125 of the 22nd May 1883 from the Deputy Commissioner of the Mysore District, in connection with Tirumakudlu-Narsipur kidnapping case No. 12 of 1883.

No. 233—14, DATED 25TH JUNE 1883.

ORDER THEREON.—The young woman named Madi should not have been sent to the Medical Officer for the purpose of examining her as to her age. It is true that the Police had to ascertain whether she was under 16 years of age, but this was a question upon which no medical man could give a decided opinion, and sending her under Police custody to a Medical Officer at Mysore was alike unnecessary and improper. She was not an accused person under Police custody, and the treatment she has been subjected to in this case was annoying and vexatious.

Letter No. 44 of the 9th June 1883 from the Officer in charge of the Amrut Mahal Department.

No. 1461-9—28, DATED 26TH JUNE 1883.

ORDER THEREON.—All works of either repair or construction or restoration of tanks in the kavals of the Amrut Mahal Department will be carried out by the Public Works Officers who have all the facilities for carrying out such works upon requisitions from the Officer in charge of the Amrut Mahal Department. This arrangement now obtains in all other Departments, and may, with advantage, be adopted in the Amrut Mahal Department.

2. Provision for probable works required in Amrut Mahal kavals will be made in the Provincial Public Works Department Budget.

3. Venkataramanaiya. — Revenue Gumasta of the late Malvalli Taluk on Rs. 15.

4. The Deputy Commissioner of Mysore will report what permanent arrangements he would propose for filling up the post of Head Clerk in the District Office caused by the retirement of Mr. D'Vaz.

5. Lakshminarasimhaiya, Sheristadar of the late Malvalli Taluk, is appointed Special Sub-Registrar of Tirumakudlu-Narsipur Taluk with effect from 1st May 1883 and Srinivasa Rao, Head Munshi of the late Hunsúr Munsiff's Court, is appointed Special Sub-Registrar of the Yedatore Taluk with effect from 1st July next. These Special Sub-Registrars will, until further orders, draw 40 per cent of the registration fees realized, for the remuneration of themselves and their establishments.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 29th June 1883.

6. It is noted that there are many incompetent and superannuated men as Shekdars in this District. It has not been found necessary to retire them in connection with the recent reductions, but the Deputy Commissioner should take early steps to retire those that are incompetent and unfit for further service in connection with the Hobli revision scheme which should be submitted without any further delay.

7. In revising the Hobli establishments, the Deputy Commissioner will, as already directed, appoint as Shekdars such of the Batta Amins of the abolished Civil Courts as may be in every way qualified to discharge the important duties of a Shekdar. Batta Amin Naranappa, who is reported to be physically unfit for further service, should be forthwith discharged.

8. The rule prohibiting the employment of men over 25 years of age appears to be not observed in this District. The Deputy Commissioner should report the circumstances under which the following officials were entertained, and whether the previous sanction of the Government was obtained for their entertainment.

Name.		*Age.*	*Service.*
Linganmaiya,	Sheristadar, Mysore Taluk ...	54	21
Ramaswamaiengar,	Record-keeper, Hunsúr Taluk ..	55	13

Rama Rao,	Munshi, Mandya Taluk	56
Timmegauda,	Shekdar of Ané, Mandya Taluk	56
Shek Budan,	Kotval, Maddur...	59

9. The Deputy Commissioner of Mysore will depute an Assistant Commissioner or Attaché to take charge of the revenue records of the late Ashtagram Division Commissioner's Office, and to examine the papers selected for destruction and to cause them to be destroyed in his presence. Subba Rao, Clerk in charge of these records, should be relieved before the end of this month, and his pension papers sent up as soon as possible.

10. The Deputy Commissioner of Tumkúr will appoint Subbanna (Sheristadar of the late Koratagere Taluk and now Police Head Munshi) as Taluk Sheristadar in the place of Narayana Rao, transferred to the Mysore District, and post him to some convenient Taluk. Govindasami Naidu (Police Head Munshi, late Chitaldroog District) should be appointed Police Head Munshi in the place of Subbanna, and Ramaswamaiengar (Deputy Munshi on Rs. 35 of the General Assistant Commissioner's Office, late Chitaldroog District,) should be appointed Revenue Head Record-keeper in the District Office, *vice* Govindasami Naidu, care being taken that no confusion results from the recent changes in the charge of the records.

Letters Nos. 318—225 and 320—227 of the 20th and 21st June 1883, from the Deputy Commissioner of the Shimoga District.

No. 1600-2—111, DATED 30TH JUNE 1883.

ORDER THEREON.—Sayer Accountant Subba Rao who was appointed Police Head Munshi in the Dewan's Proceedings dated 16th June 1883, was N. Subba Rao (Police Inspector) who was shown as Sayer Accountant in the statement received with the Deputy Commissioner's letter No. 233—162, dated 31st May 1883 and not R. Subba Rao who has been acting as Judicial Head Munshi.

2. If it had been regarded that the appointment of Judicial Head Munshi was permanently filled up upon the appointment of the previous incumbent as Amildar, it is not clear why Ranganna and Anantaramaiengar should have been shown as only acting and the latter in addition as a Supernumerary of 1880. But under the circumstances now reported, R. Subba Rao, Ranganna and Anantaramaiengar are confirmed as Judicial Head Munshi, Sayer Accountant and Revenue Deputy Munshi respectively, and A. Venkat Rao, Supernumerary, should continue as Treasury Accountant on Rs. 25 *subs pro tem.* This will leave Gundappa (Nazir's Munshi of the late Sub-Judge's Court on Rs. 20) for whom as well as for Devarasaiya (Sheristadar of the late Sub-Judge's Court) the Deputy Commissioner will be requested to make very early provision. They will draw half of their last pay as Supernumeraries till such provision is made.

3. In other respects the orders already passed in Proceedings No. 1235—85, dated 16th instant, do not seem to the Dewan to require reconsideration or alteration.

4. The Deputy Commissioner is requested to submit for reference a statement in the form noted in the margin of all officials drawing more than 20 Rs. pay in his own Office as well as in the Assistant Commissioners' Offices and Taluk Establishments.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 10th July 1883.

READ—

Letter from Mr. W. P. Stephenson dated 13th March 1883, complaining of the interference of the Forest Officials with his removing the Tangadi bark collected by him in certain Amrut Mahal Kavals in the Attikuppa Taluk under the authority of a permit granted by the Amrut Mahal Officer.

Letters Nos. 142 and 32, dated 31st March and 7th May 1883, from the Officer in charge of the Amrut Mahal Department, reporting the circumstances under which permit was granted to Mr. Stephenson.

No. 1821-35—36, DATED 10TH JULY 1883.

ORDER THEREON.—The Amrut Mahal kavals must be regarded as portions of the "District Forests" under the strict definition of the term, and the collection of tangadi bark in them by the Forest Department of the late Hassan District was therefore in accordance with the orders contained in Dewan's Proceedings No. 3494—173, dated 11th August 1882. But these orders were not communicated to the Amrut Mahal Department, which, in accordance with previous practice, subsequently issued a permit to Mr. Stephenson for the collection of the bark in the kavals marginally noted. Under these circumstances, the Government will allow Mr. Stephenson to collect the bark in accordance with the terms of the permit already issued to him by the Amrut Mahal Officer, without any interference from Forest or other Government Officers. In future and until further orders, the Amrut Mahal kavals should be closed for the collection of tangadi bark.

2. It is desirable that the services of Forest Officials should be utilized in conserving and extending the growth of trees in Amrut Mahal kavals, and the Officer in charge of the Amrut Mahal will accordingly be requested to confer with the Deputy Commissioners and Forest Officers on the best mode of doing this.

3. The Sub-Assistant Conservator of Hassan will forward through the Sub-Division Officer at French Rocks, a statement showing the number of cart-loads of tangadi bark collected by him in each of the kavals of the Attikuppa Taluk with an estimate of the cost of collection.

READ—

Letter No. 2, dated the 9th April 1883, from the Assistant Commissioner in charge of the Hassan Sub-Division, soliciting instructions in the matter of the darkhast of Dasaboyi *vs.* Kengaboyi in the Belur Taluk.

No. 1914-22—41, DATED BANGALORE, 11TH JULY 1883.

ORDER.—The Revenue authorities have no power to disturb a ryot rightfully in possession of Government land. That such land was given to a person in ignorance of a prior application for it from another is no ground for depriving the former. The officials through whose negligence the prior application was not brought to notice when the land was given to another person, should be severely punished departmentally, but no interference with rights already acquired can be permitted.

2. The Sub-Division Officer will therefore direct the Taluk and Village officials not to execute the previous orders passed by the Dewan in this case by disturbing existing possession in any way. Dasaboyi should be informed by endorsement that the Revenue authorities cannot place him in possession and that he cannot be registered as occupant.

READ—

Letter No. 51 of the 19th April 1883 from the Deputy Commissioner of the Tumkúr District.

No. 2085—77, DATED BANGALORE, 20TH JULY 1883.

ORDER THEREON.—The Jodi village of Brahmasandra in the Maddagiri Taluk was put up to sale for arrears of jodi amounting to Rs. 2,002-9-0, but no adequate bids being received, it was resumed by Government, and the arrears were ordered to be written off the accounts. Shamaiengar, late Amildar of the Pavagada Taluk, now applies for the grant of the village on jodi tenure and offers to pay to Government the amount of the arrears of jodi which were written off, and the Deputy Commissioner supports the application.

2. The Dewan observes that the Deputy Commissioner's proposal amounts to one for the fresh grant of a jodi village to Shamaiengar for a consideration of Rs. 2,002-9-0, and it cannot therefore be sanctioned. It is better for the public interest that the village in question should continue to be a Government village.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 26th July 1883.

READ—

Letter No. 551 of the 1st February last from the Deputy Commissioner of the Tumkúr District.

No. 2232-40—CIR. 46, DATED BANGALORE, 26TH JULY 1883.

ORDER THEREON.—The Deputy Commissioner of Tumkúr reports that the demand for tangadi bark has considerably risen in his District since the issue of the last orders on the subject, as applicants have offered to pay a fee of Rs. 15 the cart-load in the Chiknayakanhalli Taluk, the rates under standing orders being Rs. 8 in the Districts of the late Nundydroog Division and Rs. 3 elsewhere. As the demand for the bark varies in different localities, the Deputy Commissioner proposes that he should be permitted to regard the present fee of Rs. 8 as the minimum below which no applications are to be entertained and to raise it in desirable localities within his discretion. Before passing final orders for the increase of the seigniorage now levied, the Deputy Commissioners and Sub-Division Officers are requested to report what increase on the rates now levied in their respective Districts they would recommend.

2. It is observed that in the late Hassan District the bark is collected and sold through the Forest agency. The arrangement is perhaps calculated to produce a larger income to Government, but there are reasons of principle which make it desirable that the Government Forest and Revenue Departments should not have charge of the direct management of this industry which is better left to private enterprise. The Government sanctioned the present departmental arrangement in the Hassan District merely as an experimental measure, and the results produced are, it is feared, not such as justify its continuance. The Deputy Commissioners and Sub-Division Officers are therefore requested to submit a full report on the subject, with proposals for the proper conservation of tracts producing the bark and for the prevention of smuggling.

3. The fee levied per cart-load of the bark in the Taluks of Chitaldroog, Challakere, Hiriyur and Holalkere in the Chitaldroog Sub-Division is, in accordance with the Deputy Commissioner's and Sub-Division Officer's opinions, raised from Rs. 3 to Rs. 8. A notification to this effect will be published in the Gazette.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 12th July 1883.

READ the following letters from the Acting Inspector General of Prisons on the subject of the abolition of certain Jails in the Province :—

Letter No. 417, dated 31st January 1883.
" No. 120, dated 19th June 1883.
" No. 127, dated 25th do.

No. 1898-1913—40, DATED BANGALORE, 12TH JULY 1883.

ORDER THEREON.—The abolition of the District Jails at Tumkúr, Kolar, Hassan, Chikmagalur and Chitaldroog, as recommended by the Acting Inspector General of Prisons, is sanctioned with effect from 1st August 1883. Proposals regarding the disposal of the establishments of these Jails are awaited.

2. The Revised Rules proposed by the Acting Inspector General of Prisons in his letter No. 417 of the 31st January 1883, read above, are sanctioned with some slight modifications, and a copy of the Rules as modified is appended to these Proceedings.

3. The Consulting Engineer will be requested to report whether the present Jail building at Tumkúr can be utilized in connection with the new Railway Station required there.

4. The Jail buildings at Kolar, Chitaldroog and Hassan are all new and in good condition, and the Deputy Commissioner and Sub-Division Officers concerned should report in the Public Works Department how they may be utilized.

5. The Jail at Chikmagalur is reported to stand in need of considerable repairs which need no longer be executed. The Deputy Commissioner of Kadur will report whether it is desirable to retain this building or sell it by public auction.

6. It is not known what accommodation for a Taluk Lock-up at present exists at Kolar, Tumkúr, Chitaldroog, Chikmagalur and Hassan. If no accommodation exists, parts of the present District Jails at those places may be used as Taluk Lock-ups as a temporary measure, the requisite establishment for guarding the Lock-ups being duly provided for out of the Police Force.

RULES.

In supersession of the Rules published in the Proceedings of the Inspector General of Prisons, Nos. F, G and K, dated 1st February 1879, 26th June 1879, and 26th May 1880 respectively, the following Rules are published :—

1. In cases committed for trial from the Chitaldroog Sub-Division of the Tumkúr District to the Sessions Judge, Bangalore, all persons convicted shall be sent to the Central Jail at Bangalore. In cases in the said Sub-Division tried by Magistrates, all persons sentenced to more than 30 days' imprisonment shall be sent to the Shimoga Jail, and under 30 days to the Lock-up at the Head-quarters of the respective Taluks.

2. In the remaining portions of the Tumkúr District, in cases tried by Magistrates, all prisoners sentenced to imprisonment for a term of 30 days or under shall be sent to the Lock-up of the Taluk in which sentence is passed ; in all other cases, the prisoners shall be sent to the Bangalore Central Jail.

3. In the Kolar District, in cases tried by Magistrates, all prisoners sentenced to imprisonment for a term of 30 days or under shall be sent to the Lock-up of the Taluk in which sentence is passed ; in all other cases, the prisoners shall be sent to the Bangalore Central Jail.

4. In the Mysore District, in cases tried by Magistrates, all prisoners sentenced to imprisonment for a term of 30 days or under shall be sent to the Lock-up of the Taluk in which sentence is passed; in all other cases the prisoners shall be sent to the Mysore Jail.

5. In the Hassan Sub-Division of the Kadur District, in cases committed for trial to the Sessions Judge, Shimoga, all persons convicted shall be sent to the Shimoga Jail. In cases tried by Magistrates in the said Sub-Division, all persons sentenced to more than 30 days' imprisonment shall be sent to the Mysore Jail ; under 30 days to the Lock-up at the Head-quarters of the respective Taluks.

6. In the remaining portions of the Kadur District, in cases tried by Magistrates, all prisoners sentenced to imprisonment for a term of 30 days or under shall be sent to the Lock-up of the Taluk in which sentence is passed ; in all other cases, the prisoners shall be sent to the Jail at Shimoga.

7. Provided that if at any time the existing accommodation calculated at 500 cubic feet and 36 superficial feet for each prisoner is not sufficient for the actual numbers confined in any Lock-up, so many prisoners must be sent to the Head-quarters Jail as shall provide the required accommodation for the remainder.

8. The distance to be travelled by prisoners sent in to the Head-quarters Jail shall ordinarily be 15 miles a day. But no prisoner physically unfit shall be forced to march at that rate.

9. No convicted prisoners shall be confined in any Taluk Lock-up which is situated within 10 miles of either of the Jails at Shimoga, Mysore or Bangalore. Convicted prisoners who would otherwise have been confined in such Lock-ups shall be sent on to such of the said Jails as is nearest.

10. It shall be the duty of the Amildar to provide penal labor for all prisoners confined in the Lock-up under sentence of rigorous imprisonment and how the prisoners are employed shall be shown in a separate column in the monthly statement at present submitted.

11. A blanket and matting whereon to sleep shall be provided for every sentenced prisoner.

Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 19th July 1883.

SAID—

Petition dated 10th December 1882, from Hutchegauda of Kodihalli in the Dodballapur Taluk, complaining that certain lands applied for by him were given away to one Putta Narasim Bhatta of Nelamangala.

Letter No. 68 of the 18th April 1883 from the Deputy Commissioner of Bangalore, reporting upon the above petition.

No. 2065-6—57, DATED BANGALORE, 19TH JULY 1883.

ORDER THEREON.—At the introduction of the survey settlement to the Dodballapur Taluk in March 1881, the dry fields marginally noted were surveyed as one field No. 68 containing 17 acres 37 guntas and bearing an assessment of Rs. 27. It then consisted of two parts, one in the holding of Baichegauda, father of the petitioner, containing 16 acres 12 guntas assessed at Rs. 24—8—0, and the other in that of Gundappa, extent 1 acre 25 guntas, assessment Rs. 2—8—0. On the 2nd March 1881, before the Settlement Officer, both Gundappa and Baichegauda's son Hutchegauda, the present petitioner, relinquished their respective holdings. On the 5th March, however, Hutchegauda applied to the Settlement Officer in writing for the land in question which had long been in the possession of his family. The Settlement Officer, upon this petition, ordered him to represent the matter again on the 11th March. The papers now submitted do not show what action the petitioner or his father Baichegauda took in the matter on the 11th March 1881; but it is clear that on that day the Survey Superintendent ordered the division of the field into two numbers (Nos. 68 and 178) and their registry in the name of one Putta Narasim Bhatta who applied for them. Petitioner's father Baichegauda complained of this order and urged that his son had no authority from him to resign the field in question, and upon this complaint enquiries were instituted, and the Survey Superintendent, on the 28th June 1881, directed the restoration of Baichegauda's name as the occupant of the entire field containing 17 acres 37 guntas. This order was just and proper, because, strictly speaking, petitioner had no authority from his father to resign the land, and because petitioner had himself, soon after such resignation, revoked it. Upon this order petitioner's father Baichegauda was registered as the occupant of the land in question and he continued in possession without interruption.

2. In September 1881 Putta Narasim Bhatta complained to the Survey Superintendent of the order passed on the 28th June 1881 on Baichegauda's complaint, and represented that upon the faith of the settlement of 11th March, he had spent a large sum of money in improving the land in question. Upon this an enquiry was instituted as to the fact of possession, and though the evidence was conflicting and the local Revenue authorities were unable to come to a clear decision, yet, influenced by the fact that on the 11th March 1881 Putta Narasim Bhatta was registered as the occupant at the settlement and that there was some evidence of his subsequent possession, the Survey Superintendent gave it as his opinion that his order of the 28th June 1881 in favor of Baichegauda, the original holder, should be cancelled, and the Deputy Commissioner concurring in this opinion, directed the Amildar, on the 28th February 1882, to register Putta Narasim Bhatta as the occupant of the land in question, consisting of survey Nos. 68 and 178. Baichegauda having since then died, his son now appeals against this order.

3. After careful consideration of the papers before him, the Dewan is of opinion that the order passed by the Survey Superintendent on the 28th June 1881 must be upheld. The land in question was in the occupancy of petitioner's father Baichegauda who did not relinquish it at the settlement. His son, the present petitioner, at first relinquished it, but shortly afterwards, and long before Putta Narasim Bhatta, applied in writing for its restoration to him. The Survey Superintendent, in his Yádi to the Deputy Commissioner, dated 26th January 1882, says that if petitioner had no authority from his father to relinquish the land in question, he had no authority also

to accept the settlement as regards other lands. But this argument cannot be sustained, because, if petitioner's acts were treated as unauthorized as they ought to have been, the occupant's consent ought to have been presumed from the fact of his absence and non-relinquishment. Under such circumstances, it is clear that the land never came to be unoccupied land at the disposal of Government and all orders passed by the Survey Superintendent and the Deputy Commissioner affecting Baichegauda's rights thereto can be of no avail whatever as against him. The Government could not under the circumstances resume the land, nor could the Revenue authorities dispossess Baichegauda in favor of Putta Narasim Bhatta or any other applicant. In fact the Amildar's note dated 10th March 1882 shows that Baichegauda continued in possession without interruption and that he even took the crops of 1881-82

4. Putta Narasim Bhatta cannot expect to profit by a mistake made at the survey Settlement, as both when he applied for the land and when he afterwards tried to obtain possession of it, he had ample notice of the legal rights vested in Baichegauda. Any assessment paid by him for the land for 1881-82 or 1882-83 will however be refunded to him.

5. The land in question as per particulars in the margin will be registered in the name of Baiche gauda's son, the petitioner Hutchegauda who should be regarded as the occupant thereof.

Petition dated 14th May 1883 from the ryots of Kottanur village in the Bangalore Taluk, complaining of the oppressionof their Patel Nanjegauda.

Letter No. 315, dated 25th June 1883, from the Deputy Commissioner of Bangalore District, reporting upon the above petition.

Petition dated 6th July 1883 from Nanjegauda, Patel of Kottanur.

No. 2057—56, DATED BANGALORE, 19TH JULY 1883.

ORDER THEREON.—After careful consideration of the papers received with the above letter, the Dewan is of opinion that Nanjegauda, Petel of Kottanur, is unfit for the duties of his office. He is proved to be tyrannical and he is extremely unpopular. Not only the inhabitants of his own village and of the hamlet attached thereto, but also those of the 8 neighbouring villages with one voice complain of his high handed and oppressive conduct. He is unable to account for the expenditure of money entrusted to him for the construction of survey boundary marks. He has been very remiss in the collection of revenue, and though Mr. Ricketts, in June 1882, directed that he should be tried for a further period within which it was hoped that there might be some improvement in his conduct, yet, the report received from the Officiating Deputy Commissioner after a year's trial, shows that he is now as unpopular as ever. It is undesirable under these circumstances to retain him any longer as Patel, and the Dewan accordingly sanctions his removal from office and the appointment in his place of some person of position and influence who shall be popular with the villagers and at the same time sufficiently strong to be independent of the Shanbhog. The appointment may be made in accordance with the opinion of the majority of the villagers of which a record should be made.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 7th August 1883.

:AD—

Petitions from the ryots of Kyatanahalli, Ukkada and Manchenahalli in the Seringapatam Taluk, complaining of the encroachment by one Javaregauda on the bed of the Puttagere Tank.

Letter No 441—70 of the 31st July 1883 from the Officer in charge of the French Rocks Sub-Division, reporting on the above petitions.

No. 2530-1—90, DATED BANGALORE, 7TH AUGUST 1883.

ORDER THEREON.—The ryots of the villages of Kyatanahalli, Ukkada and Manenahalli in the Seringapatam Taluk complain of the encroachment by one Javareuda on the lands belonging to the bed of the Puttagere tank situated in the midst their villages, and of the order passed on the 11th October 1882 by Mr. Shanugavelu Pille who conducted the jamabandi of the Seringapatam Taluk in 1881—82, onfirming to Javaregauda not only the land encroached upon but also the whole of ne available land in the bed of the tank.

2. Since 1850 there have been applications from different parties for the land question, and they have, from time to time, been refused by the Revenue authorities n the express ground that it was necessary to retain the bed of the tank for storage f water for the use of the inhabitants and cattle of the neighbouring villages. In 856 an application from one Krishnaiengar was refused on this ground, and though, January 1864, Javaregauda succeeded in obtaining the land in question for cultivaion, yet, after personal inspection and report by Captain Lindsay, the Deputy Commissioner, in June of the same year, cancelled the order giving Javaregauda the whole f this land, and restricted his holding to three kolagas and half a máná. This order vas approved and confirmed by the Superintendent of the Ashtagram Division in his etter of the 8th October 1864.

3. In 1874—75 it was found that Javaregauda had encroached upon 4 kolagas nd 11½ mánás out of the extent reserved in 1864 for the tank bed, and it seems that he local Revenue authorities treated this encroachment as one on arable Government vaste available for cultivation, levied the usual fine and cofirmed the excess to him, hus increasing his holding to 7 kolagas and 12 mánás by encroachment upon the tank ed, in direct violation of the orders of 1864.

4. In 1880—81, when the Channel Department surveyed the wet lands of the village, it was found that Javaregauda's holding had received a still further addition since 1874—75, and actually measured 14 kolagas and 1 máná. This was doubtless lue to encroachment, for the previous recorded extent was based upon actual measurement both in 1864 and 1874—75 and not upon entries in old accounts or upon a rough estimate of area."

5. In 1881—82, when the Revenue authorities proceeded to assess the excess ound by survey, it was discovered that since the survey a further encroachment had been effected, probably by alteration of boundary marks, and that the actual extent was 16 kolagas and 1 máná.

6. These facts were placed before Mr. Shanmugavelu Pille who conducted the jamabandi of the Taluk in 1881—82, and that officer granted to Javaregauda not only

the excess found upon measurement, but also the entire land which superior authority had directed to be reserved as tank-bed.

7. From the above recital of facts it will be seen that Mr. Shanmugavelu Pillai's order was wholly unjustifiable. He exceeded his authority as jamabandi officer by passing an order affecting the whole tank-bed about which there was then no dispute before him. Moreover, he based his order upon the supposition that Javaregauda had a right to the land in question, because he obtained it in 1863—64, but ignored the fact that in 1864 the matter had been finally settled by defining the extent of Javaregauda's holding and reserving the remainder for a public purpose. Under these circumstances the Dewan cancels the order in question.

8. As already shown, Javaregauda is only entitled to three kolagas and half a máná. In 1873—74, however, an addition of 4 kolagas and 11½ mánás was improperly confirmed to him, and though this is liable to be resumed as an encroachment on a tank-bed, yet, in consideration of the fact that he has been in possession of this land now for so many years, the Dewan is pleased to confirm to him this excess, thus making the extent of his holding 7 kolagas and 12 mánás. Any land beyond this extent in the possession of Javaregauda has been obtained by him by encroachment, and must be summarily resumed and reserved strictly for the bed of the tank.

9. The Dewan is not satisfied that the tank is no longer required for the use of the neighbouring villages. No specific reason is assigned for this opinion, and it is observed that in 1864, after considerable enquiry, it was found that the tank was constructed for the purpose for which the ryots still wish to maintain it, *viz.*, to water their cattle during the three months when the Chikdevarayisagara Channel ran dry, and thus to save them the trouble of obtaining water for their cattle by lifting from wells. Since then the ryots of the neighbouring villages appear to have done some repair to the tank. Before therefore the tank bed can be treated as land available for cultivation, a full report must be submitted by the Sub-Division Officer regarding the sources of existing water-supply for the neighbouring villages and the wishes of the inhabitants of those villages. Pending final orders on such a report, the arrangement of 1864 must be strictly adhered to and the 7 kolagas and 12 mánás of land belonging to Javaregauda should be demarcated by the Channel Department and new boundary marks erected and duly preserved.

Letter No. 1078—747, dated 3rd February 1883, from Deputy Commissioner, Shimoga, submitting report on the petition of N. Bhimachar complaining against the sale of his wife Gundamma's vritti land in the Agrahar of Mugur, Sorab Taluk.

No. 2611—96, DATED 10TH AUGUST 1883.

ORDER.—The vritti belonging to petitioner Bhimachari's wife Gundamma in the Inam village of Mugur Agrahar was sold on 12th October 1881, and the sale was confirmed by the Deputy Commissioner on 8th June 1882. Gundamma, when called upon to pay the arrears of revenue due by her, refused to pay and prayed for the sale of the vritti, *vide* her depositions dated 29th June and 30th July 1880 and in her petition dated 30th January 1881 she referred the Government for payment to one Swami Rao, who, however, did not take any steps to pay the arrears. The petitioner under these circumstances is not entitled to take any objection to the sale, and that the entire village has not been sold is a matter which in no way affects him. Petition accordingly dismissed.

Bangalore Deputy Commissioner's letter No. 73 of the 24th April 1882 reporting on the circumstances connected with the sale of the petitioner's land.

Vernacular proceedings in the case received with the Deputy Commissioner's No. 151, dated 16th May 1882.

No. 2614—97, DATED 10TH AUGUST 1883.

ORDER THEREON.—The sale of petitioner's land was held on the 9th June 1877 on account of the arrears of Government revenue due thereupon. It was confirmed by the Deputy Commissioner on the 26th July 1877, and though there was a delay of one year in recovering the purchase money from the purchaser, the petitioner took no steps during the interval to pay the arrears due by him and his first objection to the sale was not taken till the 26th of May 1880. The delay in the recovery of the purchase money was very irregular, but it in no way affects petitioner's rights. Petitioner who paid Rs. 4 on the day of the sale is not proved to have paid a further sum of Rs. 1½ to the Shanbhog as alleged by him, and the balance recoverable from him was therefore Rs. 2—8—2 for the recovery of which the sale was held. Under this sale the purchaser has been in possession during the past 6 years, and as the proceedings connected with it were in every way regular, the Dewan must decline to cancel it.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 10th August 1883.

READ—

Petitions dated 29th September 1880, 26th July 1881 and—December 1882, from Anche Timmegauda complaining of the sale of his land in the Lalanakere village of the Nagamangl Taluk for arrears of revenue.

Records connected with the case, submitted with letter No. 472—84, dated 3rd August 1883, from the Officer in charge of the French Rocks Sub-Division.

No. 2624—99, DATED BANGALORE, 10TH AUGUST 1883.

ORDER THEREON.—Petitioner Anche Timmegauda's lands situated in the Lalanakere village of the Nagamangala Taluk, and assessed at Rs. 9—1—6, were sold by public auction on the 7th August 1879 for Rs. 90 on account of the arrears of Government revenue due thereupon amounting to Rs. 17—13—6 for the two previous famine years of Dhatu and Isvara. On 13th August 1879, the Deputy Commissioner of the late Hassan District confirmed the sale. On 23rd August 1879, the Amildar directed the immediate collection of the purchase money from the purchaser, but it was not till 26th November 1879 that this amount was recovered from the purchaser Kodigauda. On the 7th August 1879, a few hours after the sale had been concluded, petitioner's cousin Gaudaiya produced the arrears due on the lands in question, and prayed that the sale might be cancelled, and this application, when reported upon by the Amildar, was refused by the Deputy Commissioner on the 13th idem. On 18th August 1879 a petition appears to have been presented to the Deputy Commissioner who, by endorsement No. 112, directed the petitioner to produce a copy of the Amildar's orders. On 6th February 1880 Timmegauda represented his case by petition to the Amildar, and after some correspondence between the Amildar and the Deputy Commissioner, and frequent reminders from the petitioner, the Deputy Commissioner, on the 10th July 1880, finally refused to cancel the sale. Thereupon the petitioner appealed to the late Chief Commissioner by petition, dated 29th September 1880. This petition and two subsequent ones presented in July 1881 and December 1882 remain undisposed of in this Office.

2. Upon a careful consideration of the entire record in this case, the Dewan is satisfied that the proceedings of the local Revenue authorities in this matter have been throughout irregular and unjustifiable. The rules relating to the sale of land in satisfaction of Government revenue were, in this instance, totally ignored. The prescribed notice of demand was served neither upon the petitioner nor upon the person in possession of the land. There was no previous attachment, nor was an advertisement of sale published as required by the Revenue Law. The sale which was held on the 7th August 1879 was, for these reasons, illegal, but the Deputy Commissioner confirmed it on the 13th idem, without waiting for the expiry of the 30 days allowed by law for the lodging of objections to the sale. Petitioner's cousin Gaudaiya objected to the sale on the day it was held and produced the arrears due upon the lands. His objection was overruled though he had actually cultivated 3 out of the 8 pieces of the land in question and was reserving (as stated by him) the remaining 5 pieces for the later crop of horse-gram, and offered to pay the arrears on behalf of petitioner. He did not ask for *possession* of the lands as stated in the Deputy Commissioner's order rejecting his application. His application was rejected on the express ground that his tender of arrears was 2 or 3 hours after the conclusion of the sale, but no cognizance whatever was taken of the purchaser's default to pay the purchase money for three months! As already stated, the purchase money was paid only on 26th November and this delay in itself was sufficient to vitiate the sale. It may also be noted that the rules require that such portion of the defaulter's property as may be sufficient to recover the arrears should alone be sold, but in the present case the entire holding of 8 fields was sold for Rs. 90 in order to recover a sum of Rs. 17—13—6 when the sale of one or two fields or even of the trees only upon some of them would have fully satisfied the Government demand.

3. Under such circumstances the Dewan has no hesitation in cancelling the sale as illegal and he accordingly directs the restoration of the lands in question to the petitioner. The Government are averse to disturbing possession acquired under a

Government sale, but in the present case the sale was so clearly irregular and inequitable that it is impossible to uphold it on any just or reasonable grounds.

4. The arrears, it is seen, are those of the famine years of Dhatu and Isvara, for the collection of which special rules considerably relaxing the rigour of the ordinary procedure had been prescribed by the Government, permitting Deputy Commissioners to grant time and remissions in the cases of deserving men and to grant the lands of ryots who had abandoned their homestead, on temporary cultivation, so that the ryots on their return might find their land again. Land sales were as a rule much discountenanced in those years.

5. In the present case the Deputy Commissioner knew that the petitioner was absent from his village and living in Manantadi, struggling probably against famine. The case therefore was clearly one to which the special rules ought to have been applied. So far from conceding to petitioner the benefit of these special rules the unusually harsh procedure of refusing to receive the arrears when offered by his cousin was resorted to.

6. The omission to include in the sale of the lands, the trees standing on them was an error, and the Deputy Commissioner's orders as regards the disputes arising therefrom were inconsistent and ineffectual. It is necessary to refund to petitioner any money which may have been recovered by the sale of such trees. If the trees have not as yet been removed, their sale should be cancelled, and petitioner allowed to enter upon possession of the lands with the trees standing on them.

7. The Dewan regrets to find that the proceedings of the local authorities in this case have been very summary and arbitrary, and inconsistent with the Government policy discouraging land-sales as much as possible.

Docket from Deputy Commissioner, Mysore, No. 297, dated 7th September 1882.

ORDER.—The proceedings received with the docket above read are returned with the remark that the Dewan approves of the action taken by the Deputy Commissioner for the resumption of the land in question. No land whether containing date trees or not should be given out for cultivation if it is situated in the midst of date groves, as such a measure is found invariably to lead to the gradual destruction of the date grove by means of unauthorized felling in view to future encroachment.

READ—

Letter No.— of the 15th June 1883 from the Inam Superintendent in Mysore, submitting the Annual Report of the Inam Department for the year 1882—83.

No. 2961—44, DATED 27TH AUGUST 1883.

ORDER.—The operation of the Inam Department during the year under review was chiefly confined to the issuing of title-deeds and quit-rent registers, &c., for cases already decided; the number of fresh cases settled being very small as the work of the Department is coming to its close. Three thousand, three hundred and eighty-four title-deeds for minor inams in Government villages have been issued during the year and there remain 48,099 cases in which title-deeds have to be prepared and issued. At the rate secured in 1882—83, there is no chance of completing this branch of the Inam work under fourteen or fifteen years; the Inam Superintendent will therefore be requested to adopt measures necessary for the more rapid despatch of this important work.

2. Final quit-rent and muzarayi registers have been issued in about nine thousand odd cases, but the report is silent as to the number still pending.

3. Thirty-six whole villages have been settled on the revised survey valuation in accordance with the orders of September 1881. The Dewan is glad to learn that the Inam Superintendent is taking measures for the early completion of this important work.

4. The financial result of the year is an increase of Rs. 152—10—9 consisting of quit-rent Rs. 14—7—7, net value of resumptions Rs. 98—8—2 and muzarayi resumptions of cash payments Rs. 39—11—0, the whole constituting a permanent increase to the revenue; the resumptions were one for invalid title and eleven for the non-existence of the temples or non-performance of service in them: the grounds for the resumptions of cash payments have not been reported, they include grain kodigi inams.

5. The total cost of the Department for the year 1882—83 was Rs. 7,891—12—11.

Letter No. 1264—866 of the 21st March 1883 from the Deputy Commissioner, Shimoga District, reporting upon the petition of Sarvottama Rao, Munshi, Shikarpur Munsiff's Court.

EAD also—

The Vernacular correspondence connected with the case, submitted with Deputy Commissioner's docket No. 266—205 of the 13th June 1883.

No. 2967-9—117, DATED 27TH AUGUST 1883.

ORDER THEREON.—The petitioner owns a certain *extent of land situated in the village of Chikabannur in the Channagiri Taluk, and assessed dry during the survey settlement of 1871—72; the land, however, is under an old breached tank which in 366 it was intended to repair at a cost of Rs. 500. Government abandoned the idea repairing the tank, but petitioner appears subsequently to have executed some repairs to it, though the circumstances under which he was allowed to do this have not een ascertained. The repairs executed by petitioner did not include a sluice and the nk is now without one.

*No.	Acres.	Guntas	Dry Assessment.
26	32	23	Rs. 21.

2. In 1872—73 the petitioner appears to have irrigated a portion of his dry field by water from this tank got by cutting through the bund. Ever since part of the land has been assessed wet, as shown in the margin. In 1878 the petitioner claimed remission of wet assessment on the ground that the tank was breached and prayed that it might be repaired, nd pending this work, that dry rates, as usual, might be collected from him. The emission was declined on the ground that the breach was effected by his ryots, and nat in consequence he was bound to repair the tank; the tank is also one with revenue elow 100 Rs.

Acres.	Guntas	
15	13	Rs. 10 dry assessment.
17	10	Rs. 37 wet do
otal.....32	23	Rs. 47

3. The petitioner urges again that having spent 800 Rs. on the repairs of the nk he is entitled to remission of portion of wet assessment: there is no record showng that he was at any time authorized to repair this tank, nor is there any evidence nat so much money has been spent on the tank, and the absence of all allusion to nis fact at the time of settlement, when it was petitioner's interest to have put this ict forward for getting the consideration now claimed, is proof that no such costly epairs were ever effected by him.

4. The breached tank under which it is situated is a wet weather katta, capable of ontaining no water during the dry season, even if again repaired. The land in quesion was always assessed as dry, and the Amildar's application to the Survey Departnent in 1872—73 for the conversion of a portion of it from "Dry" into "Wet" was remature, and was not justified by the fact that petitioner unauthorizedly used water n that year by cutting through the bund. Such unauthorized use of Government vater should have been punished, but no conversion of "Dry" into "Wet" should nave been recommended until the due establishment of the source of water supply. The Deputy Commissioner will take steps, in communication with the Department Public Works, for the restoration of the tank if it is considered profitable to do so. n the meantime, however, the wet rates imposed on a portion of the land should be vithdrawn and the original dry assessment of Rs. 21 on the entire field should be estored, care being taken that petitioner does not unauthorizedly use Government vater for the cultivation of any portion of it.

5. Petitioner has refused to pay the wet assessment since the year Vishu, and nder the circumstances, the dry assessment above ordered need alone be recovered rom him from that year, the remainder being remitted.

6. The Superintendent of Revenue Survey will direct the needful alterations in he settlement papers, in accordance with the above decision.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 1st August 1883.

SAID—

Estimates of the Establishment and Revenue Charges of the Mysore State Railway for the half-year ending 31st December 1883, submitted with the Manager's letter No. 1803—61 of the 10th July 1883.

No. 2363-5—23, DATED BANGALORE, 1ST AUGUST 1883.

ORDER THEREON.—The estimates of the establishment and revenue charges of the Bangalore-Mysore Railway for the half-year ending 31st December 1883 show a very considerable decrease of about Rs. 30,000 both upon the estimates of the previous half-year and the actuals of the half-year ending 31st December 1882. A portion of this decrease is due to reduction of establishment.

2. Under the head "General Charges," the monthly cost of establishment has been reduced to Rs. 2,051 from Rs. 2,366, due chiefly to the abolition of the appointments of Chief Store-keeper on Rs. 300, a Draughtsman on Rs. 30, and 2 Telegraph Signallers on Rs. 30.

3. Under "Way and Works" the cost on account of the pay of the Engineers remains as before at Rs. 575, but that of the subordinate inspection establishment has been considerably reduced from Rs 601 to Rs. 328. In the Office establishment there is a small reduction of Rs. 20 due to the abolition of a Draughtsman; there is evidently room for further reduction here, for, an Accountant and three Clerks may not all be required for this department of Mr. Molloy's Office.

4. Again, in the Locomotive and Carriage and Wagon Department, the monthly cost of the subordinate working establishment has been reduced to Rs. 292 from Rs. 492, and there is also a considerable saving of over Rs 1,000 a month effected in the wages of workmen employed on repairs and renewals of rolling stock. These reductions are justified by the comparatively small work at present turned out in the Workshop. The establishments attached to the Office of the Locomotive Superintendent, General Shops, &c., however continue to be unduly large In addition to the Clerks and Accountant in the "Way and Works Department" an expensive Chief Clerk on Rs. 150 and 5 other Clerks with a large number of menial servants appear to be too liberal a provision, and must receive consideration at the end of the current half-year.

5. In the "Running Establishment" and "Station Staff" some small reductions have been effected, but it is reported that they are not such as will in any way impair efficiency.

6. It is also satisfactory to note that the cost of maintenance per mile per month is reduced to Rs. 24·52 from Rs. 40·18 during the last half-year.

7. The estimate of 84 lbs of wood fuel per train mile also appears to be capable of some reduction. The price proposed to be paid to the Forest Department, *viz.* Rs. 3 per ton, requires revision, as the working charges of the Forest Department in connection with the fuel supply exceed at present that rate, and the rate now in force, *viz.* Rs. 5 per ton, is much less than what a private contractor will accept. The Government therefore are of opinion that a reduction of the cost of fuel should be effected not by decreasing the present rate but by careful economy in the use of fuel. The question of the price to be fixed for fuel will hereafter be decided in communication with the Deputy Commissioner in the Forest Department.

8. With these remarks, the estimates in question are sanctioned.

9. Regarding the Manager's proposal to grant bonuses to the various establishments out of profits, any recommendation which may be made at the end of the current half-year will receive the careful consideration of the Dewan. The Government are glad to find that Captain Brackenbury has already been able to effect considerable economy and any suggestions calculated to encourage further economy in all Executive Departments will receive favorable consideration.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 30th August 1883.

2. RECEIPTS.—*Octroi.*—Octroi, which is confined to cocoanuts, dry and green, betel-leaves, tobacco and piece goods in almost all minor municipalities, is levied on a larger number of articles in the larger towns of Mysore, Seringapatam and Hunsur. Octroi is an objectionable form of tax and the Dewan would like to see it abolished in all municipalities except those at Mysore, Seringapatam, Nanjangud and perhaps Hunsur. Copy of the late Dewan's Memorandum No. 561 of 29th November 1882, regarding the abolition of octroi in Davangere and in all minor municipalities in general, is herewith forwarded and the Deputy Commissioner is requested to submit proposals in view to the abolition of the tax in all minor municipal towns in his District, retaining it for the present in important municipalities only on a few productive articles.

3. *House and Mohatarfa Taxes.*—The estimates of income for the current year under house and shop taxes show, as compared with those of the past year, large decreases in the marginally noted towns. These have not been explained.

4. EXPENDITURE.—*Octroi.*—The pay of the municipal establishment in the District Office comprising one Clerk on Rs. 25 and another on Rs. 15 and a peon on Rs. 5, now proposed to be newly entertained, has been debited proportionately to all the municipalities except Mysore Town. The Deputy Commissioner is requested to state whether this establishment examines the accounts of the Mysore Municipality as contemplated in the late Chief Commissioner's Proceedings No. 6866-7—346 of 23rd March 1880, para 1, and if so whether a rateable part of its cost should not be borne by it.

5. *Police.*—The budget statement No. 1 of the Town of Mysore provides Rs. 24,814 for Police charges, while the cost of the Police given in the statement of details of expenditure amounts to Rs. 25,114. The strength of the Police Force provided in the *budget exceeds that entered in the return for June submitted by the Deputy Commissioner to the Police Secretary. Pending, however, explanation of these discrepancies, the figure 25,114 has been retained.

*Strength as per Budget.		*Return for June.*	*Excess.*

2nd Do do ...	8	7	1
1st Class Constables..	39	35	4
2nd Do do	74	70	4
3rd Do do	76	72	4

6. *Collection.*—The percentage of the cost of collection of octroi to its revenue as provided for in the budgets of Hunsur, Seringapatam, Channarayapatna and Holé Narsipur are 21·6, 25, 25·6 and 32·9 respectively, while the charge in Tirumakudlu Narsipur exceeds the income from the tax by Rs. 10. This is objectionable. In revising the octroi as suggested in para 2 above, the Deputy Commissioner is requested to reduce the establishments for collection so that their cost does not exceed 10 per cent of the total receipts from the tax as directed in para 3 of the late Chief Commissioner's Proceedings No. 4053-64—202 of 30th October 1879.

7. *Public Works.*—The proposed outlay on public works in the District and the Sub-Division amounts to Rs. 24,295, of which Rs. 10,081 are for original works, Rs. 12,364 for municipal repairs and Rs. 1,850, the moiety of the cost of the repairs of school houses at Taluk head-quarters. It is observed that provision for these educational repairs has not been made in the budgets of Hunsur and Seringapatam.

8. The estimates submitted for the marginally noted works in Seringapatam provided for in the budget are sanctioned.

1	Do do do	

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 30th August 1883.

9. *Lighting.*—Besides the usual charge for lighting in Mysore and Hunsur, provision has been made under the head in the budgets of Gundlupet, Holé Narsipur, Arkalgud, Seringapatam, Nagamangala and Channarayapatna. The Deputy Commissioner is requested to state what steps have been taken to arrange for lighting in Hunsur in accordance with the suggestion made in para 2 of the late Chief Commissioner's Proceedings No. 6866-7—346, quoted above. Lighting in other minor towns, with very small revenues, would seem to be a luxury; the provision made for it is accordingly struck out, except in the case of Seringapatam for which a detail report regarding the arrangements necessary should be submitted.

10. *Charitable grants.*—Classes for English instruction have been maintained only by the municipalities at Hunsur and Gundlupet. The opening of an English class at Talkad Narsipur was sanctioned in 1881. Contributions from Municipal Funds are made towards the up-keep of the Mysore Female Hospital and the Dispensaries at Hunsur, Yedatore (Hampapur) Nanjangud and Channarayapatna. The budget of Seringapatam newly provides Rs. 300 for an English school and Rs. 350 under the head Dispensary. These provisions are passed, subject to the proposals for establishing them being submitted in detail separately for sanction.

11. A provision of Rs. 200 appears in the budgets of almost all the towns under a head termed "General Improvement." The nature of this requires explanation.

12. The proceedings of the meeting of the Municipal Committee held at French Rocks now submitted are approved.

13. With the foregoing remarks, the budgets under review are provisionally sanctioned.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 10th August 1883.

READ—

Letter No. 227, dated 12th July 1883, from the Deputy Commissioner of Mysore, submitting a report on the arrangements made to give effect to the orders contained in Dewan's Proceedings No. 24, dated 29th June 1883, for providing for Supernumeraries allotted for employment in the Mysore District.

No. 2621-3—107, DATED BANGALORE, 10TH AUGUST 1883.

ORDER THEREON.—Adverting to para 5 of the above letter, the Deputy Commissioner is informed that any strengthening of the establishments of the Assistant Commissioners' Offices should be effected by transfer of officials from other offices and not by new appointments, as there are still a large number of Supernumeraries remaining to be provided for in the Province and any vacancies which may be available have to be kept open for them.

2. As regards the acting appointments in connection with the District Head Clerkship referred to in para 6, it is observed that Narayanasami Mudaliar, the Acting Head Clerk, was promoted to the Deputy Clerk's appointment on Rs. 70 from the 3rd Clerkship on Rs. 40 only on the 10th March 1881, and a further promotion to him to the Head Clerkship so soon after his recent promotion to the Deputy Clerkship cannot be sanctioned consistently with the claims of others. Mr. McPherson, who was formerly drawing Rs. 100 in this Office and is now Head Clerk in the Kolar District on Rs. 80, may therefore be appointed Head Clerk at Mysore and Narayanasami Mudaliar sent to Kolar as Head Clerk on Rs. 80. The other acting appointments referred to may all be confirmed.

3. With reference to para 9, the Deputy Commissioner will in future strictly enforce the rule prohibiting the appointment to the Government service of persons over 25 years of age.

4. As regards the 8 officials named in para 10 who appear to be over 55 years of age, their retirement was not directed in Dewan's Proceedings of the 29th June 1883, which merely asked for information whether the special sanction of Government had been obtained for their retention in the service. Four of these officials were included in the list of men directed to be retired in para 2 of the Proceedings above quoted, but as regards the others, it was not intended that they should be retired forthwith, as they as well as the officials referred to in para 12 of the Deputy Commissioner's letter may hereafter have to be called upon to retire as stated in para 1 above.

5. With reference to para 13 of the Deputy Commissioner's letter, he is requested to carry out such transfers of Taluk Sheristadars as he may deem required on public grounds and to report them to this Office for information.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioner, Mysore District.
The Deputy Commissioner, Kolar District, with reference to para 2.

READ—

Petition dated 6th July 1883 from————Shanbhog of————in the————Taluk complaining of the grant of a portion of his shanbhogi inam land for building purposes.

Letter No. 428, dated 25th July 1883, from the Deputy Commissioner,————District, reporting upon the above petition.

No. 2668-9—102, DATED BANGALORE, 11TH AUGUST 1883.

ORDER THEREON.—It is clear from the papers submitted that the land in question is shanbhog inam land. In February 1882 two ryots of the village applied for permission to build a couple of houses on it. In a Patti dated 14th May 1882, furnished to the Taluk Cutcherry by the petitioner as Shanbhog of the village in connection with the above application, he distinctly stated that the land applied for was his "Naukari Inam." The Amildar————personally inspected the land, but without referring to accounts or making any enquiry into the Shanbhog's statements, inferred that the land in question must be Government waste land from the fact that the village hedge was situated on a part of it. He accordingly on 10th July 1882 directed the Shanbhog to measure up the land and to submit a Paimayish Patti. The Shanbhog, on the 8th October 1882, when submitting the Paimayish Patti called for, strongly protested against the grant of the land for building purposes. Overruling these objections but without assigning any reason therefor, the Amildar, on the eve of his leaving the Taluk for————————Taluk to which he had been transferred, directed, by an order dated 3rd December 1882, the grant of the land in question for building purposes, fixing a price of Rs. 5 for each site. The ryots had, however, commenced to build their houses on the land previous to this grant.

2. The petitioner appealed against this order to the Deputy Commissioner who thought it was undesirable to oust the ryots from their houses, and referred the petitioner to civil courts for the establishment of his right to the land. When it was pointed out to the Deputy Commissioner that such cases of misappropriation of service land were specially within the jurisdiction of the Revenue authorities, that officer recommended the grant to petitioner of other land as inam in lieu of the one improperly taken away for building purposes. This recommendation is based upon the statement that the houses had been built before the petitioner complained to the Deputy Commissioner. But it will be seen that petitioner from the very commencement of these proceedings deprecated the alienation of the land for building purposes, and as there was no doubt as to the land being his service inam, the Dewan is compelled to remark that the action of the Amildar————was high-handed and taken without any enquiry into facts, nay, in the face of the clearest proof that the land was not a portion of the village site. If the Amildar had taken the trouble to examine into the evidence which the petitioner offered, he would have found that the land in question was service inam which could not be alienated as a building site except under the previous sanction of Government.

3. The Amildar's order of the 3rd December 1882 was, under the circumstances, beyond his jurisdiction, and is therefore cancelled.

4. There is evidently no lack of space in the village for building purposes, and the action of the Amildar only tended to aggravate the existing ill-feeling between the Patel and the Shanbhog, the ryots who applied for the land being instigated thereto by the former.

5. The Deputy Commissioner will issue the necessary orders for resuming the land in question and restoring it to the Shanbhog (Petitioner). The ryots who have built upon the land did so with full notice of the title of the Shanbhog, and they are therefore, strictly speaking, entitled to no compensation. If any compensation is considered necessary by the Deputy Commissioner, he is requested to submit a report stating the amount of such compensation, when the Dewan will be prepared to direct its recovery as a fine from Amildar————for his highly irregular and careless proceeding. In the meantime the disapprobation with which Government views his conduct should be conveyed to the Amildar.

The Deputy Commissioner of————for communication to Amildar————.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 28th August 1883.

From the Secretary to the Dewan of Mysore, To the Officiating Deputy Commissioner, Chitaldroog, No. 8884—108, dated 17th February 1882.

Chitaldroog Deputy Commissioner's No. 642, dated 7th February 1882, submitting for orders correspondence between his Office and Chik Mallaiya, Toddy Contractor, who requests that orders be issued to Amildars to correspond with his employés by means of "Yadasts."

In reply to the above, states that correspondence between Government officials of all classes and private gentlemen such as the contractors and their agents should be in the form of Yadasts or memoranda. It is impossible to lay down any definite rule as regards every subordinate servant of the contractor; and it is not clear what occasion such servants can have for official communication with Government officers, for all official communication should be either with the contractors direct, or with their recognized local agents.

Letter No.————dated————————from the Government Abkari Contractor————————District, forwarding correspondence regarding the form in which correspondence should be conducted between him and the Deputy Commissioners.

No. 3000-9—62, DATED 28TH AUGUST 1883.

ORDER THEREON.—All communications between the abkari contractors of the several Districts in Mysore and their Deputy Commissioners, Assistant Commissioners and Amildars will be in the form of "Yadis" in Canarese or memos or letters in English. This appears to be the form of correspondence in most of the Districts and is evidently the proper form. * * The copies of correspondence accompanying the letter read above show a want of sufficient consideration on the part of the Deputy Commissioner of————————towards the contractor.

2. Copy of Secretary's letter No. 8884—108, dated 17th February 1882, to the Deputy Commissioner of Chitaldroog, will be communicated to all Deputy Commissioners and Sub-Division Officers for information and guidance.
